

Boston Children's Hospital – Guide for ordering PPE supplies

For face shields and other PPE items, you can place an order with the STAT room. Please note there may be limited quantities of some items.

To order, call the STAT room directly (617) 355-6222 or x5-6222, select Option 1 and give the following information:

- Exact delivery location
- Contact person email and phone #
- Dept ID / Grant # to charge to
- Quantity of product needed (face shields, masks, gloves, alcohol wipes, hand sanitizers, etc.)

Deliveries may take up to a day to receive. The STAT room is located in the sub-basement of the Main Hospital, so you can also pick up your order of PPE items in person.
