

## What SCOOP interns say:

### **SCOOP High School Intern from 2007:**

*"I really enjoyed working in the NICU these past weeks, and look forward to hopefully become a nurse. As of right now, I would love to end up working in the Children's Hospital NICU!"*

### **SCOOP High School Intern from 2007:**

*"As I approach the end of my internship, I look back and appreciate how much I have learned, and how much I will take away from my time at Children's Hospital. Every day is filled with amazing experiences. Working in the catheter lab was an amazing opportunity and a memorable experience.. I truly love working at Children's Hospital, and I am going to miss coming in to work everyday."*

### **SCOOP High School Intern from 2008:**

*"The nurse teaching the class showed me and another student a Central Venous Catheter. She actually let me join in on practicing on the mannequin. The mannequin was like a real person, and it was really great to join in and actually do some hands on things. It made me want to do nursing even more."*

## Student Career Outreach Opportunities Program (SCOOP) Summer Internship

**Center for  
Nursing Innovation  
and  
Clinical Scholarship**

## What is it?

The summer student internship program is available to high school students (junior and senior classes) and college students (freshmen and sophomore classes). The program will place you in patient service areas throughout Children's Hospital Boston. There are ten positions available for summer 2009. During your internship you will learn more about the delivery of healthcare and will participate as a team member in the care of our patients.

## When is it?

The Summer High School Internship begins in the second week in July for six weeks until mid-August.

## What will I do?

The internship is for you to work at Children's Hospital, Boston 24 hours per week throughout the internship period. You will spend 22 hours of that time working alongside a mentor in a patient services area. Your mentor will help and support you through the scholarship period. Some of this time can be spent shadowing in particular units that interest you. Throughout the internship you will also be working on developing a project to be presented at the end of the program. Once a week you will be given the opportunity to meet with the other interns and share your experiences.

## By the end of the summer..

You should be able to do the following :

- ◆ Describe the roles and functions of patient services disciplines in a pediatric hospital setting.
- ◆ Participate as a team member in a selected patient services area.
- ◆ Share with others what you learned through your experience or how you fulfilled a need in your unit.

## Are you interested?

Fill out the enclosed application in Word® format. Write a 500-word essay, why you would like to work in health care. High School Students must be entering their sophomore, junior or senior year. **Please include two letters of recommendation** and your date of graduation.

The deadline for application is **March 6, 2009**
