

FACULTY PROFILES

Carol E. Barnewolt, M.D.

Assistant Professor of Radiology

General Pediatric Radiology, Ultrasound, Genitourinary Radiology and Fetal Imaging

Dr. Barnewolt received her B.S. from Santa Clara University in California and her M.D. from Chicago Medical School. She then returned to California and after a transitional internship, completed a residency in diagnostic radiology at the University of California, San Francisco - Central San Joaquin Valley Program. She did her 2 year pediatric radiology fellowship at Children's Hospital, Boston. Dr. Barnewolt has special interests in pediatric ultrasound, genitourinary radiology and fetal imaging. She is the Co-Director of the Division of Pediatric Ultrasound and Co-Director of the Section of Fetal Imaging.

Stephen D. Brown, M.D.

Instructor in Radiology

Diagnostic Pediatric Radiology

Obstetrical Radiology

Dr. Brown grew up in Philadelphia and received his B.A. and M.D. from the University of Pennsylvania. He completed a residency in Diagnostic Radiology at Massachusetts General Hospital and a fellowship in Pediatric Radiology at Children's Hospital Boston. He received additional focused training in Interventional Radiology and Obstetrical Ultrasound during his residency and fellowship. His clinical interests include pediatric and obstetrical radiology and imaging-guided tumor ablation.

Dr. Brown also has a strong interest in medical ethics. In 2003-2004, he completed the fellowship in medical ethics in the Division of Medical Ethics at Harvard Medical School. He is an Associate Clinical Ethicist in the Office of Ethics at Children's Hospital and Research Subject Advocate for Ethics and Education for the hospital's General Clinical Research Center.

He is the recipient of a 2006 Children's Hospital Faculty Career Development Award, and was recently named an Eleanor and Miles Shore 50th Anniversary Scholar in Medicine at Harvard Medical School.

Carlo Buonomo, M.D.

Assistant Professor of Radiology
Gastrointestinal Radiology; Abdominal Imaging

Dr. Buonomo received his B.A. from Yale University and his M.D. from the University of Maryland. After completing his internship and residency in Diagnostic Radiology at The Johns Hopkins Hospital, he was a Fellow for two years at Children's Hospital in Boston. His interests include gastrointestinal radiology and neonatal radiology.

Patricia E. Burrows, M.D.

Professor of Radiology

Dr. Burrows received her M.D. degree from the University of Manitoba and obtained subspecialty training in pediatric radiology at Winnipeg Children's Hospital, pediatric cardiovascular and neuroradiology at Children's Hospital, Boston, and interventional neuroradiology at the Hospital du Kremlin Bicetre in Paris, France. Dr. Burrows was on the staff of Arkansas Children's Hospital in 1982, and the Hospital for Sick Children from 1983 to 1992. She joined the Radiology Department of Children's Hospital in 1993. She chairs the Children's Hospital Radiology Sedation Committee and is a co-director of the Vascular Anomalies Center. Dr. Burrows' interests include the diagnosis and treatment of pediatric vascular disease and vascular anomalies.

Michael J. Callahan, M.D.

Instructor in Radiology
Chief, Division of Computed Tomography

Dr. Callahan was born in Syracuse, New York. He received his B.S. from Hobart College, and his M.D. from Upstate Medical University in Syracuse. He completed his radiology residency at Tufts-New England Medical Center in Boston, and his pediatric radiology fellowship at Children's Hospital, Boston, where he served as second year chief fellow. His particular interests include cross-sectional imaging applications in children with gastrointestinal and musculoskeletal disorders. Dr. Callahan joined the faculty after completing his fellowship in 2002. He is currently the Section Head of Computed Tomography, and Co-Director of the Fellowship Program.

Jeanne San-yu (Mei-Mei) Chow, M.D.

Assistant Professor in Radiology

Dr. Chow received her B.A. from Brown University and her M.D. from the Columbia College of Physicians and Surgeons. After completing her residency in Diagnostic Radiology at Brigham and Women's Hospital, she was a Fellow for two years at Children's Hospital in Boston. Her interests include genitourinary radiology and prenatal imaging.

Robert H. Cleveland, M.D.

Professor of Radiology

Chest, Neonatal Imaging and General Pediatric Radiology

Dr. Cleveland received his B.A. from the University of Texas, Austin and M.D. from the University of Texas, Galveston. He completed his residency training in radiology at Upstate Medical Center and fellowship in Pediatric Radiology at Children's Hospital, Boston. Following the completion of his fellowship, Dr. Cleveland joined the faculty of the Massachusetts General Hospital where he remained for 13 years. He returned to Children's Hospital in 1991. His areas of special interest are neonatal and chest imaging.

Leonard P. Connolly, M.D.

Assistant Professor of Clinical Radiology

Nuclear Medicine

Dr. Connolly received his B.A. from the College of Holy Cross and his M.D. from Georgetown University. He completed a surgical internship at Georgetown University Hospital, followed by a radiology residency at the Deaconess Hospital, Boston, MA and a fellowship in Nuclear Medicine in the Harvard Joint Program in Nuclear Medicine. His areas of interest include the applications of nuclear medicine to sports medicine, oncology, and urology.

Susan A. Connolly, M.D.

Assistant Professor of Radiology
Musculoskeletal Radiology
Chief, Section of Ultrasound

Dr. Connolly received her B.S. from Seton Hall University in New Jersey and her M.D. from Georgetown University. She completed her radiology residency at New England Deaconess Hospital and subsequently did a fellowship in pediatric radiology at Children's Hospital Boston. She has a special interest in pediatric musculoskeletal radiology.

Kirsten Ecklund, M.D.

Assistant Professor of Radiology
General Pediatric Radiology, Musculoskeletal and Oncologic Radiology
Director of Body MR Imaging

Dr. Ecklund received her B.S. from the University of Michigan and her M.D. from Case Western Reserve University School of Medicine. After an internal medicine internship at Boston University Hospital, she completed a residency in diagnostic radiology at the Deaconess Hospital in Boston and a pediatric radiology fellowship at Children's Hospital, Boston where she served as Chief Fellow. She returned to Children's as a staff radiologist in 1997. Her special interests are in pediatric musculoskeletal disorders, and oncologic imaging.

Judy A. Estroff, M.D.

Associate Professor of Radiology
Ultrasound and General Pediatric Radiology

Dr. Estroff received her B.A. from the University of Michigan and her M.D. from the University of California, San Francisco. She completed a year of pediatrics at UCSF, followed by a radiology residency at Mt. Zion Hospital in San Francisco, and two years of fellowship training in pediatric radiology at Children's Hospital, Boston. Dr. Estroff was on the faculty of Boston University for one year, returning to Children's Hospital in 1988. Dr. Estroff's areas of interest include obstetric, neonatal and pediatric ultrasound.

Rick Fair, M.D.

Instructor in Radiology

Dr. Fair has recently returned to join the faculty at Children's Hospital after 12 years in the United States Navy, most recently as the pediatric radiologist at the Naval Medical Center in Portsmouth, VA. He received his undergraduate degree from Denison University and his M.D. from The Ohio State University. Rick completed his residency in radiology at the Naval Medical Center San Diego in 1997 and was a fellow in pediatric radiology at Children's Hospital Boston from 1999-2000. His interests include radiology education and general pediatric radiology.

Annamaria Golja, M.D.

Instructor in Radiology

Dr. Golja received her B.S. from Binghamton University in New York. She completed medical school and her first year of surgery internship at the State University of New York, Downstate Medical Center in Brooklyn. She went on to spend one year at Hershey Medical Center in Pennsylvania in a radiology residency and then returned to Downstate to complete the radiology residency. She completed her pediatric radiology fellowship at Children's Hospital of Boston and then specialized in pediatric neuroradiology during her second year.

N. Thorne Griscom, M.D.

Professor of Radiology

General Pediatric Radiology, Neonatal Radiology and Pulmonary Radiology

Dr. Griscom received his B.A. from Wesleyan University in Connecticut and his M.D. from the University of Rochester School of Medicine. His pediatric and radiology residencies were at Massachusetts General Hospital. Dr. Griscom is Past-Secretary, Past-President and Past-Chairman of the Board of Directors of The Society for Pediatric Radiology. He has been President and Chairman of the Board of Directors of the New England Roentgen Ray Society. He has been Associate editor of **Radiology** and has won that journal's Editor Recognition Award. He has been an associate editor of **Pediatric Radiology** and a consulting editor for the **American Journal of Roentgenology**. He reviews or has reviewed manuscripts for **Radiology**, the **American Journal of Roentgenology**, **Pediatric Radiology**, and seven other journals. He was co-recipient of the Caffey Award of The Society for Pediatric Radiology in 1972. He is author or co-author of 175 papers, chapters in books, and review articles. He has given review courses in pediatric radiology or invited lectures or has been Visiting Professor

in Japan, Korea, New Zealand, Australia, Norway, Austria, Brazil, and Turkey, plus many places in Canada and the United States. Dr. Griscom has a particular interest in chest disease in infants and children. He has made a special effort to assist others in preparing and editing their scientific manuscripts for publication. He gave the Caldwell Lecture, entitled "Respiratory Problems of Early Life Now Allowing Survival into Adulthood" to the American Roentgen Ray Society in 1991. He gave the Centennial-Hartman Lecture, entitled "A Century of Pediatric Radiology", to the Washington meeting of The Society for Pediatric Radiology in April, 1995. He also gave the Kirkpatrick Lecture, entitled "A History of Radiology at Children's Hospital, Boston" in July, 1995. He has given 13 other named lectures. He was the Associate Editor of the third edition (1997) of Kirks' Practical Pediatric Imaging, probably the premier textbook of pediatric radiology. He edited the seminar on radiation reduction held at the 2002 meeting of The Society for Pediatric Radiology. In 1997 he was made an honorary member of the European Society of Pediatric Radiology. Also he won the first annual Friends of the House Staff Award at Children's Hospital, Boston, the Kirkpatrick Teaching Award of the Department of Radiology of Children's Hospital, and the Gold Medal of The Society for Pediatric Radiology. The new Education Award of The Society for Pediatric Radiology was named for him.

Paul K. Kleinman, M.D.

Professor of Radiology

Dr. Kleinman received his BA from Boston University and MD from State University of New York, Brooklyn. He completed pediatric and radiology residencies and pediatric radiology fellowship at New York Hospital Cornell Medical Center. He was the director of pediatric radiology at the University of Massachusetts Medical Center for over 20 years. He joined the staff at Children's Hospital in 2002. His academic interests span a broad spectrum of pediatric imaging, in particular musculoskeletal diseases. A major focus has been in the area of child abuse and its imitators. He has published numerous of articles and has lectured widely on this subject in the US, Europe and South America. He serves on the editorial board of several radiology journals. He is the Director of the Imaging Center for Child Abuse and Neglect.

Robert L. Lebowitz, M.D.

Professor of Radiology

Dr. Lebowitz was born and raised in Terre Haute, Indiana. He received his B.A. degree from Harvard College and his M.D. from Western Reserve University, Cleveland, OH. After a pediatric residency at Metropolitan General Hospital, Cleveland, OH he served as a doctor for two years in the U.S. Army in Japan during the Vietnam war. His radiology residency was at Peter Bent Brigham Hospital, Boston, and his pediatric radiology training was here at Children's Hospital, Boston. Dr. Lebowitz is Past-Secretary/Treasurer and Past-President of the Society of Uroradiology, and he will receive the Society's Gold Medal next spring. He is Past-Treasurer and Past-President of the New England Roentgen Ray Society, as well as Past-President of Temple Shalom of Newton, MA. He is Past-President of The Society for Pediatric Radiology and Past Chairman of its Board of Directors. He received that Society's Gold Medal in May of 2006. He is an honorary member of both the European Society of Pediatric Radiology and the Australasian Society of Pediatric Imaging. He is author of Postoperative Pediatric Uroradiology. Dr. Lebowitz has also served as Coordinator of Radiology for the International Reflux Study in Children, on the Admission Committee for Harvard Medical School, and has examined candidates for the American Board of Radiology, and has twice received the Kirkpatrick Award for outstanding teaching. He was a member of the Task Force for Quality Assurance of the American Academy of Pediatrics. He has been a member of the Hospital's Ethics Advisory Council. He has a Certificate with Added Qualifications in Pediatric Radiology from the American Board of Radiology. Dr. Lebowitz has run the Boston Marathon twice and is still able, on occasion, to run to and from work. Dr. Lebowitz's major interest is pediatric uroradiology.

Edward Y. Lee, M.D., M.P.H.

Instructor in Radiology

Dr. Edward Lee received his A.B. and M.D. from the University of Chicago. During his second year of medical school at the University of Chicago, he was accepted to a MD/MPH joint degree program between the University of Chicago and Harvard University. He received the Master of Public Health (MPH) degree at Harvard School of Public Health with a concentration in International Health. He completed an internal medicine internship at Harvard Medical Center (Beth Israel Deaconess Hospital/Brigham & Women's Hospital/Dana Farber Cancer Institute). His radiology residency was at the Mallinckrodt Institute of Radiology (Washington University Medical Center). Upon completion of his radiology residency, Dr. Lee returned to Boston where he completed a one year pediatric radiology fellowship at Children's Hospital Boston. During this fellowship, he served as Chief Fellow and subsequently became a staff radiologist in July 2005. His current academic focus is on pediatric chest imaging with a research focus in developing new imaging techniques and modalities. As a GERRAF (GE/AUR) and Society of Pediatric Radiology research fellow, Dr. Lee is currently conducting research using hyperpolarized (^3He) MRI to study pediatric asthma patients. His other research interests include mediastinal vascular, central airway, and congenital lung anomalies in children.

Robert V. Mulkern, Ph.D.

Associate Professor of Radiology

Associate Director, Scientific, MRI Division

Dr. Mulkern received undergraduate degrees in physics and mathematics from Cornell University. He received a Ph.D. in physics from Brown University where he pursued magnetic resonance (MR) studies of condensed matter. He became a Cancer Training Fellow in 1986 and began studying and developing MR techniques for medical applications. His current interests include rapid imaging and spectroscopic imaging methods, MR relaxation and water diffusion properties in tissue, and the development of MR-guided interventional procedures.

Alan B. Packard, Ph.D.

Assistant Professor of Radiology
Senior Research Associate in Nuclear Medicine

Dr. Packard received his B.S. in chemistry from the University of New Hampshire and Ph.D. in inorganic chemistry from Colorado State University. He was a Postdoctoral Fellow with E.A. Deutsch at the University of Cincinnati and an Assistant Scientist in the Medical Department at Brookhaven National Laboratory before coming to Children's Hospital. Dr. Packard's principal research interests are the development of Cu-64 and F-18 radiopharmaceuticals for the evaluation of multidrug resistance in cancer, myocardial perfusion imaging, and interictal detection of epileptogenic foci and the application of transition metals to biomedical problems.

Horacio Padua, M.D.

Instructor in Radiology

Dr. Padua received his B.S. in electrical engineering at the University of Rochester and his M.D. from New York Medical College. Prior to medical school, he was a programmer/analyst in the radiology department at Brigham and Women's Hospital. He did his radiology residency at Fletcher Allen Health Care in Burlington, Vermont and his pediatric diagnostic and interventional radiology fellowships at Children's Hospital Boston. He remains at Children's as faculty. Dr. Padua divides his time between diagnostic and interventional radiology.

Harriet J. Paltiel, M.D.

Associate Professor of Radiology
Body Imaging
Director, Medical Student Education
Director, Visiting Professor Program

Dr. Paltiel received her L. Mus and M.D.C.M. from McGill University in Montreal, Canada. After a rotating internship in Montreal she trained for one year in Anatomical Pathology at St. Michael's Hospital in Toronto and for one year in Internal Medicine at Jewish General Hospital in Montreal. After a residency in Diagnostic Radiology at McGill University Teaching Hospitals, she completed a two-year fellowship in Pediatric Radiology at Children's Hospital, Boston. Dr. Paltiel's particular interests are pediatric ultrasonography, vascular anomalies, and genitourinary disorders.

Jeannette Perez-Rossello, M.D.

Instructor in Radiology

Dr. Perez-Rossello's clinical focus is musculoskeletal imaging, and her primary research interest lies in bone density disparities in children across ethnic groups. She holds a Bachelor's of Science degree in Biology and Society from Cornell University where she was also inducted into the Quill & Dagger Honor Society for exemplary service to the university. Dr. Perez-Rossello received her medical degree from the University of Rochester School of Medicine and completed her radiology residency training at Mount Auburn Hospital, earning the Roentgen Ray Resident Research Award. She completed a pediatric radiology fellowship at Children's Hospital Boston. She is now Co-Director of Outpatient Radiology Services and is interested in quality of outpatient services and technical advances in teleradiology. Dr. Perez-Rossello is a lecturer in the Pediatric Radiology Elective at Harvard Medical School and a member of her department's Graduate Medical Education Committee. She serves on the Workflow, Quality Assurance, Outpatient Facilities Planning, and Applications Maximizing Patient Safety Committees. In addition, Dr. Perez-Rossello is exploring ways to improve imaging protocols to evaluate children suspected of abuse and was appointed to the Child Abuse Committee of The Society of Pediatric Radiology.

Tina Young Poussaint, M.D.

Associate Professor of Radiology

Director of Neuroimaging Center, Pediatric Brain Tumor Consortium

Director of Pediatric Neuroradiology Fellowship

Coordinator for Neurooncologic Imaging

Dr. Poussaint was born in Rochester, New York. She received her B.A. from Mount Holyoke College and her M.D. from Yale University School of Medicine. After an internship in pediatrics at Yale-New Haven Hospital, she completed residency training in Diagnostic Radiology and a fellowship in Neuroradiology at Massachusetts General Hospital. After serving on staff in Neuroradiology at MGH, she joined the faculty at Children's Hospital. Her special interests include neuro-MRI, neurooncology, and the phakomatoses.

Richard L. Robertson, Jr., M.D.

Assistant Professor of Radiology
Chief, Division of Neuroradiology

Dr. Robertson received his B.A. from the University of Virginia and his M.D. from the University of Virginia School of Medicine. He trained in diagnostic radiology and completed a fellowship in neuroradiology at the Massachusetts General Hospital, Boston. Following completion of his fellowship he was a staff neuroradiologist at the Massachusetts General Hospital for one year prior to joining the Division of Neuroradiology at Children's Hospital. He has been the Director of Neuroradiology at Children's since 2000. His area of special interest is cerebrovascular disease in children.

Caroline D. Robson, M.D., Ch.B.

Assistant Professor of Radiology
Chief, Division of Magnetic Resonance Imaging
Director of Head and Neck Imaging

Dr. Robson received her M.B., Ch.B. from the University of Cape Town in South Africa. She completed a residency in Diagnostic Radiology at Groote Schuur Hospital, South Africa, and received her FFRadD[SA] from the College of Medicine in South Africa. She worked from 1990-1993 as a consultant pediatric radiologist at Red Cross Children's Hospital, South Africa before moving to the USA. Dr. Robson, who is certified by the American Board of Radiology with Certificate of Added Qualification in Neuroradiology, completed a fellowship in pediatric neuroradiology at Children's Hospital, Boston before joining the neuroradiology staff at Children's Hospital. Dr. Robson is Division Chief of MR and Director of Head and Neck imaging. Her area of special interest is pediatric head and neck imaging and fetal neuroimaging.

John G. Santilli, M.D.

Instructor in Radiology
Vascular/Interventional Radiology

Dr. Santilli received his B.S., M.S. and M.D. degrees from Wayne State University in Detroit, Michigan. He completed his Radiology residency training at Tufts/New England Medical Center. He then completed a fellowship in Cardiovascular and Interventional Radiology at University of Maryland Medical System in Baltimore. He

remains on staff at the University of Maryland. He returned to Boston and has worked as staff in Vascular Radiology at Massachusetts General Hospital as well as the division of Interventional Radiology at Brigham and Women's Hospital. He currently remains on staff at both MGH and BWH. He serves as manuscript reviewer for the Journal of Vascular and Interventional Radiology (JVIR), Cardiovascular and Interventional Radiology (CVIR) and Cancer. His clinical interests include transcatheter tumor embolization and dialysis access maintenance. Academic interests also include percutaneous therapy for vascular malformations as well as arterial and venous balloon angioplasty and stenting in pediatrics.

Laureen M. Sena, M.D.

Instructor in Radiology

Dr. Sena received her B.S. from Simmons College and her M.D. from the Medical College of Pennsylvania. She then completed radiology residency at the University of Massachusetts Medical Center, followed by subspecialty training in pediatric radiology at the Hospital for Sick Children in Toronto. After three years as a staff pediatric radiologist at Johns Hopkins Hospital, she joined the staff at Children's Hospital in 2000. Her special interests include cardiac imaging with MRI and CT (in addition to tennis and dancing - especially salsa and Argentine tango).

Keith J. Strauss, M.Sc.

Instructor in Radiology

Director, Radiology Physics and Engineering

Mr. Strauss grew up in Indiana, received his B.A. in physics from Manchester College and M.Sc. in radiologic physics from the University of Chicago. Mr. Strauss was certified by the ABR as a Diagnostic Radiological Physicist in 1980, by the American Board of Medical Physics (ABMP) in diagnostic imaging physics in 1990, became a Fellow in the American Association of Physicists in Medicine (AAPM) in 1999, and a Fellow in the American College of Radiology (ACR) in 2006. He is responsible for all aspects of imaging physics and the in-house repair and maintenance of the department's imaging equipment. His efforts are focused on optimal image quality at minimum dose levels for children, equipment acquisition and acceptance testing, facility planning issues, and efficient equipment maintenance and repairs. He works extensively on task groups and committees of the ACR, AAPM, and Conference of Radiation Control Program Directors (CRCPD). Prior to coming to Children's Hospital, Mr. Strauss worked in a similar capacity for 8 years in adult radiology at Michael Reese Hospital in Chicago. He has served as a physicist consultant at a number of pediatric and adult hospitals in the US and for the American Children's Hospital (Project HOPE in Krakow, Poland).

George A. Taylor, M.D.

Professor of Radiology
Radiologist-in-Chief

Dr. Taylor grew up in Latin America, and speaks Spanish and Portuguese fluently. He received both his B.S. and M.D. degrees from The George Washington University, completed residencies in Pediatrics and Radiology at The Johns Hopkins Hospital, and a fellowship in Pediatric Radiology at Children's Hospital Boston. He is on the Editorial Board of 11 journals in radiology and pediatrics, and has won the Editor's Recognition Award With Distinction from the journal *Radiology* 9 times. In addition, he has received teaching awards from the Pediatrics and Radiology house staff, and the Bronze, Silver and Caffey Awards of The Society for Pediatric Radiology. He has published more than 200 original articles, reviews, and book chapters. His research interests include: 1) Hemodynamic disturbances in neonatal cerebrovascular injury; 2) Development of ultrasound contrast agents for non-invasive quantification of solid organ perfusion; and 3) Clinical outcomes research in pediatric imaging.

S. Ted Treves, M.D.

Professor of Radiology
Chief, Division of Nuclear Medicine

Dr. Treves is the Chief of the Division of Nuclear Medicine at the Children's Hospital and the Brigham & Women's Hospital. He received his M.D. from the University of Buenos Aires. He trained in Nuclear Medicine and Radiology at the Royal Victoria Hospital, McGill University, Montreal, Canada, and at Yale Medical School in New Haven. He joined Children's Hospital and Harvard Medical School in 1970 and developed the clinical and research nuclear medicine programs at Children's Hospital.

Dr. Treves has authored over 200 original reports, over 60 review articles and book chapters, and a textbook, Pediatric Nuclear Medicine (Springer-Verlag, 2nd edition, 1995). Dr. Treves is a member of the American Board of Nuclear Medicine. He is Chairman of the Nuclear Medicine Committee of The Society for Pediatric Radiology.

Dr. Treves is a member of editorial boards of the **Journal of Nuclear Medicine** and the **European Journal of Nuclear Medicine**. He is a recipient of the George V. Taplin Award from the Society of Nuclear Medicine. He is a member of the Harvard-MIT Division of Health Sciences and Technology. Dr. Treves is interested in electronic imaging, multimedia communications, systems integration, pediatric nuclear medicine and radiopharmaceutical research.

Stephen D. Voss, M.D., Ph.D.

Assistant Professor of Radiology

Dr. Voss was raised in Marshfield, Wisconsin. He graduated with honors from Princeton University. He then spent two years at the University of Heidelberg doing research as a Fulbright Scholar. He then returned to the University of Wisconsin and completed his doctorate and attended medical school. He came to Boston to continue his research in cancer biology and gene therapy. He completed a radiology residency at the New England Deaconess Hospital and did his pediatric radiology fellowship at Children's Hospital, Boston. Dr. Voss has remained as a member of the faculty since his fellowship.

Valerie L. Ward, M.D.

Instructor in Radiology

Dr. Ward received her A.B. and M.P.H. from Harvard University and M.D. from Yale University School of Medicine. She completed an internal medicine internship at Beth Israel Hospital, Boston, MA, a diagnostic radiology residency at Brigham and Women's Hospital, Boston and a pediatric radiology fellowship at Children's Hospital, Boston. She served as Chief Fellow at Children's Hospital and joined Children's as a staff radiologist in July 2000. Her clinical and research interests include fetal ultrasound and magnetic resonance imaging, dose reduction in pediatric imaging, technology assessment and health services research in radiology. Dr. Ward was a recipient of the Society for Pediatric Radiology's Young Investigator Award (2001), and a General Electric--Association of University Radiologists Fellow (2002).
