How to Use a Nebulizer with a Face Mask

A nebulizer uses a machine that makes a mist of medicine to breathe in through a face mask or mouthpiece. Your child's doctor or nurse will tell you how much medicine to put into the nebulizer. Follow the steps below on how to use a nebulizer with a face mask.

1. Wash hands.

5. Open the plastic vial.

9. Take slow, deep breaths until most of medicine is gone.

2. Put face mask on the nebulizer container.

6. Pour medicine into nebulizer container.

DO NOT hold mask away from face while breathing in medicine.

3. Attach tubing to bottom of nebulizer container.

7. Put on face mask.

10. Rinse mouth with water.

4. Attach other end of tubing to nebulizer machine.

8. Turn on the nebulizer machine.

11. Spit out water.
