

Boston Children's Hospital's Affiliated Group Program

Boston Children's Hospital
Sports Medicine

bostonchildrens.org/sportsmed

Boston Children Hospital's Affiliated Group Program works with individual institutions to provide clinical access to our world-renowned sports medicine practices in Boston, Waltham, Lexington and Peabody.

Why partner with us

With over 100 affiliate members, we are the health care choice of athletes and dancers of all levels.

Who we are

7 orthopedic surgeons

11 primary care sports medicine specialists

2 podiatrists

6 sports medicine fellows

4 physician assistants

5 licensed-certified athletic trainers

1 nutritionist

1 exercise physiologist

1 sports psychologist

The experience and depth of our expertise in sports medicine allows us to provide the highest quality health care based on specific needs of the growing and adult athlete. We also have an extensive list of specialists who we refer to for a wide range of conditions.

What we do

Depending on your institution, we can develop a mutual agreement of contract for team physician services.

Available benefits

Preferred access to care

- Private contact line for our Affiliated Group Member Liaison or Call Center Triage clinician every weekday from 8 a.m. to 5:30 p.m.
- Direct access for urgent appointments, evaluations and treatments
- Access to our Saturday Urgent Sports Medicine Clinic which is from 9 a.m. to 3 p.m. from September through May
- Concussion clinics, including baseline testing at our Boston, Waltham and Peabody campuses are accessible through our Concussion Clinic Liaison
- Pre-participation physicals and injury prevention programs
- Specialized performance programs for runners and female athletes

Comprehensive education programs for athletes, athletic trainers, coaches and families

- Injury prevention training
- Sports psychology
- Sports nutrition
- Access to our weekly Sports Medicine Lecture Series and to our major sports medicine conferences for free or at reduced rates (for fully contracted affiliated group program members)

Team physician and or clinical staff may supply

- Direct contact, coverage of major events and supervision of athletic trainers as mandated by their Massachusetts practice licensure laws under the Commonwealth of Massachusetts, Board of Allied Health Professions
- Partial affiliation status with institutions for clinical access, referrals, second opinions and surgical consults are also available (known as our Referring Affiliates)
- Guidance for athletic trainers, physical therapists, dance therapists, school nurses and administrators
- Help with establishing treatment protocols and developing Emergency Action Plans for all venues and coverage needs

Join Boston Children's Hospital in a world-class partnership

The Children's Sports Medicine Foundation, Inc. is a 501c3 not for profit foundation under the Boston Children's Hospital Division of Sports Medicine. We are also a Board of Certification, Inc. Provider (#P3340) for athletic trainer CEU.
