Boston Children’s Hospital’s Community Health and Benefits Strategic Implementation Plan (FY 17 – FY19)

Below are the details of Boston Children’s Hospital’s Community Health and Benefits Strategic Implementation Plan. It outlines how Boston Children’s addresses key health needs and issues identified in our assessment process through clinical care, programs and services and in collaboration with community partners. Boston Children’s community mission is to improve the health and well-being of children and families in the community. Our goal is to develop and collaborate on programs and services that improve health outcomes and enhance the quality of life for children and families, especially those affected by health, social, economic, racial and ethnic disparities.

<tbody>
<tr>
<td>Mental and Behavioral Health</td>
<td>1) Building community capacity to identify and address mental and behavioral health concerns, including integration of mental health into primary care, and 2) offering services where children live and learn</td>
<td>Children’s Hospital Neighborhood Partnerships Program (CHNP) BPS Comprehensive Behavioral Health Model</td>
<td>• Increase access to comprehensive, high quality mental health services for children in underserved communities building capacity in community health centers (CHCs). • Build sustainable mental health capacity of partner organizations through CHNP’s Training and Access Project (TAP). • Continue supporting the comprehensive behavioral health model across Boston Public Schools through funding and participation in planning and implementation efforts. • Continue efforts to integrate behavioral health supports into primary care at Martha Eliot and affiliated CHCs.</td>
<td>• Boston Community Health Centers (CHCs) • Boston Public Health Commission (BPHC) • Boston Public Schools (BPS) • BPS’ Children’s Behavioral Health Initiative’s Executive Team • Children’s Mental Health Campaign</td>
</tr>
<tr>
<td>Trauma Response and Prevention</td>
<td>1) Utilizing clinical expertise to provide prevention, treatment and advocacy services to individuals at-risk or who are victims of trauma, 2) Supporting mental health efforts to help children and families cope with stress created by socio-economic and racial disparities, 3) Support the Boston Public Health Commission to establish Neighborhood Trauma Teams in at-risk neighborhoods, and 4) Work with Martha Eliot Health Center Psychiatry and Social Work along Mildred C. Hailey residents to identify ways of offering support and training for youth impacted by trauma</td>
<td>Child Protection Clinical Services o AWAKE o Child Protection Team o Foster Care Clinic CHNP’s Training and Access Project (TAP) BPHC Neighborhood Trauma Teams BPHC’s Defending Childhood Initiative</td>
<td>• Provide expert medical and psychosocial consultation and/or assessment to children referred to the outpatient clinic. • Identify children who are suspected to have been maltreated and to reduce the likelihood of future harm. • Capacity building in schools through above mentioned TAP program will provide supports for trauma response in schools. • Provide funding for and serve on committee to structure collaborations between CHCs and grass roots violence prevention/response organizations. • Community-based training on topics including Trauma, Resilience, Domestic Violence, Intimate Partner Violence, Early Childhood and Adolescent Development.</td>
<td>• Boston Public Health Commission • CHCs and grass roots violence prevention/ response organizations in East Boston, South End Jamaica Plan, Dorchester, Roxbury, and Mattapan • Jamaica Plain Coalition/Tree of Life • Massachusetts Department of Children and Families • Project R.I.G.H.T • Suffolk County DA’s Office • Suffolk County Children’s Advocacy Center</td>
</tr>
<tr>
<td>Early childhood/ Child Development</td>
<td>1) Building community capacity to identify and address early childhood issues such as behavioral concerns and learning delays, and 2) Partnering with community organizations that provide families with support and treatment services.</td>
<td>Advocating Success for Kids (ASK) Project LAUNCH at Boston Children’s at Martha Eliot</td>
<td>• Provide access to developmental behavioral health services within community settings. • Enhance primary care providers’ knowledge to identify and treat developmental concerns. • Provide parent support services for families utilizing early childhood mental health specialists. • Support general infant-parent bonding and promote parent engagement. • Develop systems to build social emotional learning supports in Head Start programs.</td>
<td>• ABCD Head Start • Boston Public Schools • Mildred C. Hailey Tenants Organization • Nurtury • Smart from the Start • The Home for Little Wanderers Preschool Outreach Program • Countdown to Kindergarten • Boston Basics</td>
