Curriculum Overview

Core clinical rotations
Attending on the inpatient general pediatric teaching services as well as exposure to other areas of hospital-based medicine & complex care delivery

Individualized clinical rotations
Tailored to the interests of each fellow and may include experiences in areas such as transport medicine, palliative care, transitions to adult care, acute pain management and child abuse/neglect

Training in hospital systems & academic scholarship
Medical education, patient safety, advocacy, clinical research, quality improvement, evidence based medicine, leadership & business administration

Our Mission
We strive to train academic leaders in the diverse and evolving field of pediatric hospital medicine through advanced mentored experiences in hospital-based clinical care, medical education and clinical research.
