About the Augmentative Communication Program
The goal of the Augmentative Communication Program (ACP) is to identify solutions including systems, devices, and strategies that meet a person’s needs for more effective communication at home, school, work, and in the community.

Who can benefit from ACP services?
ACP offers services for individuals with complex communication needs. Some of the persons seen at the ACP present with the following conditions:
- autism spectrum disorders
- cerebral palsy
- developmental delays
- metabolic and genetic conditions
- degenerative and neuromuscular conditions
- traumatic brain injury
- spinal cord injury
- acquired language disorders
- apraxia of speech
- dysarthria

How the program works
ACP staff includes speech language pathologists and occupational therapists with expertise in the area of augmentative communication. Scheduling with the appropriate clinician(s) will be based on intake information provided. The following areas of functioning are typically considered within an evaluation:
- speech
- language
- other means of communication
- vision and visual processing
- physical movement abilities
- Seating and positioning
- alternative inputs (i.e. keyboard, mouse, or switch)
- Positioning supports (trunk supports, wrist supports, AFOs)

Following an evaluation, clinician(s) recommend appropriate communication approaches and systems, which are customized to meet individual needs. Recommendations typically include low-tech solutions, which may be combined with a speech generating device, computer software, and/or an alternative keyboard or mouse. ACP clinicians welcome input from and collaboration with care providers, early intervention and school personnel, local professionals, and private therapists.
Location and hours
ACP is located on the second floor of Children’s Hospital Boston at Waltham, 9 Hope Avenue, Waltham, Massachusetts. It is open 8:30 am to 5:00 pm Monday through Friday (excluding holidays).

To schedule an appointment
Enclosed please find an intake packet (to be completed by parents/caregivers/service providers). We ask that you send these materials as soon as possible to allow us to schedule your appointment with the appropriate clinician(s). Please refer to the top of this page for our mailing address. These forms are also available for download in PDF format from our website at www.childrenshospital.org/acp.

Please mail/fax the following materials prior to the appointment:
- Intake packet (enclosed)
- Recent communication evaluations

Please bring the following documents to the appointment:
- Copy of current IFSP/IEP/ISP
- Previous evaluations/re-evaluations (speech-language, developmental, neurological, cognitive/psychological)

In addition, we request you bring the following to the appointment:
- Materials used to support communication (e.g., communication book, photographs, visual schedules, electronic communication devices, etc.)
- Materials the individual finds motivating (e.g., toys, food, videos, etc.)
- Current eyeglasses and hearing aids
- Adaptive stroller or wheelchair (with tray) or other supportive seating

We encourage anyone supporting your individual’s communication or education program to attend this meeting if at all possible.

Thank you for contacting the Augmentative Communication Program. We look forward to working with you and your individual.

If you need additional information, please contact ACP’s Scheduling Coordinator at 781-216-2209.

- Special Education
- ABA
- Other:  

### Behavior

<table>
<thead>
<tr>
<th>Describe typical behavior:</th>
<th>List preferred toys, foods, songs, videos, etc.</th>
</tr>
</thead>
</table>

- How long will your child pay attention to an activity he/she is interested in?  
  - Yes  
  - No  

- Describe your child’s personality (e.g., easygoing, rigid, happy, etc.):  

- Is your child able to easily transition between activities and environments?  
  - Yes  
  - No  

- Please comment on your child’s pretend play skills (e.g., combing doll’s hair, pushing train on tracks, etc.):  
  -  
  -  
  -  

- Does your child exhibit aggressive/self-injurious behaviors?  
  - Yes  
  - No  

  - If yes, please describe:  

- Is your child motivated to interact with peers?  
  - Yes  
  - No  

- If Yes, is he/she currently receiving behavioral intervention?  
  - Yes  
  - No  

  - If yes, please describe:  

---

Patient Name: ________________________________
## Communication

### Does your child currently:

- [ ] Understand simple directions? Example: _____________________________________
- [ ] Understand names for people and objects?
- [ ] Understand names for body parts?
- [ ] Answer simple questions? Example: ____________________________________
- [ ] Understand prepositions (in, under, on)?
- [ ] Understand color and size words?

### Which of the following describe(s) how your child communicates?

- [ ] Pointing, gesturing, vocalizing
- [ ] Eye contact, facial expressions
- [ ] Babbling
- [ ] Pulls person to desired object
- [ ] Objects/tangible symbols
- [ ] Pictures
- [ ] Communication boards/book
- [ ] Sign language

- [ ] Single words
- [ ] Two word phrases
- [ ] Three to four word sentences
- [ ] Sentences with some errors
- [ ] Grammatically correct sentences
- [ ] Writing
- [ ] Communication device(s) – If yes, please complete page 6
- [ ] Other (please specify): _____________________

**Please provide examples of your child’s communicative messages** (e.g., vocalizations, signs, picture symbol use, etc.):

### If your child uses communication boards/books/devices to communicate, please provide additional information regarding:

**Symbol type:**
- [ ] Text
- [ ] PECS (Picture Exchange Communication System)
- [ ] Mayer-Johnson PCS
- [ ] Photographs
- [ ] Other

**Number of symbols per page/display:**
___________________

**Presentation:**
- [ ] Removable icons
- [ ] Static grid

**Access:**
- [ ] Point
- [ ] Symbol exchange
- [ ] Other:

______________________________

### Does your child communicate to:

- [ ] Ask for wants/needs?
- [ ] Ask questions?
- [ ] Get your attention?
- [ ] Greet people?
- [ ] Label people, things, or pictures around him/her?
- [ ] Ask for help?
- [ ] Share information?

### What does your child do when not understood?

**Please explain** (e.g., repeats message, modifies message, stops trying to communicate, etc.):

### If your child speaks, do you have difficulty understanding his/her speech?

- [ ] Yes
- [ ] No

**If yes, please explain:**

### Do others have difficulties understanding his/her speech?

**Please mail copies of previous communication evaluations in advance of scheduled appointment**
**Communication Device(s):**
Please complete if your child is using/has used a communication device

### History of speech generating device use:

| Name of device: | ____________________________ |
| Age of device:  | ____________________________ |

Is the device currently being used? Yes/No
If no, please explain why:
________________________________________________________________________
________________________________________________________________________

### Parent knowledge of device:

- New device, no experience
- Basic skills (on/off, navigation)
- Can program
- Can operate
- Can customize
- Advanced programming

### Environments where device is used:

(Check all that apply)

- Structured school activities
- In therapy
- In the community
- At home during structured tasks
- Spontaneously at home for social interaction
- Spontaneously at school
- Spontaneously in the community

### Device use: (Check all that apply)

- Initiates communication with system
- Uses system to ask and answer questions
- Needs direction/prompting
- Single key is used to express a full message
- Able to participate in a conversation using the device
- Functional spelling skills
- Uses system as a backup to speech
- Makes wants/needs known with device
- Uses device socially (e.g., greetings, questions, comments, etc.)
- Navigates device with assistance
- Navigates independently
- Explores device but doesn’t use functionally

### IEP Goals for device use:

### Access: (Check all that apply)

- Direct selection (touchscreen, keyboard)
- Keyguard (yes/no)
- Scanning
  - Type of switch: __________
  - Number of switches: _______
  - Type of scanning: ____________________________________________
- Joystick
- Headmouse
- Eyegaze
- Other: ________________  
## Physical Status:

<table>
<thead>
<tr>
<th>Gross motor status:</th>
<th>Fine motor status:</th>
</tr>
</thead>
<tbody>
<tr>
<td>□ Walks independently with no balance or safety concerns</td>
<td>□ Has no problem using both hands for feeding, writing, and other fine motor tasks</td>
</tr>
<tr>
<td>□ Walks independently but needs supervision for safety</td>
<td>□ Has functional use of right hand only</td>
</tr>
<tr>
<td>□ Walks independently using assistive device (i.e. crutches, walker, cane)</td>
<td>□ Has functional use of left hand only</td>
</tr>
<tr>
<td>□ Can walk for short distances with physical assistance of another person</td>
<td>□ Has great difficulty functionally using hands</td>
</tr>
<tr>
<td>□ Unable to walk</td>
<td>□ Can write for short periods of time after which it becomes fatiguing and effortful</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Fine motor status:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>□ Can isolate a finger or thumb to activate a 1” target</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Fine motor status:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>□ Can write for short periods of time after which it becomes fatiguing and effortful</td>
<td></td>
</tr>
</tbody>
</table>

### Positioning supports: (Check all that apply)

- □ AFOs
- □ Trunk support:
  - o Soft spinal orthosis
  - o Benik trunk support
  - o Leckey waistcoat
  - o Other: _______________
- □ Wrist supports

### Positioning/assisted transportation:

- □ Uses a stroller which is pushed by someone else
- □ Uses a manual wheelchair which is pushed by someone else
- □ Drives a power wheelchair using a joystick, head switch array, chin controller
- □ Stander
- □ Walker or gait trainer
- □ Other specialized positioning equipment

### Can most easily control movements of:

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>□ Eyes</td>
<td>□ Right hand</td>
</tr>
<tr>
<td>□ Head</td>
<td>□ Left hand</td>
</tr>
<tr>
<td>□ Foot</td>
<td></td>
</tr>
</tbody>
</table>

### Computer:

#### School:
- Platform: (circle one) Windows/Mac
- Operating System: Windows 2000, XP, Vista, OSX

#### Home:
- Platform: (circle one) Windows/Mac
- Operating System: Windows 2000, XP, Vista, OSX

#### Does your child use a computer at school? Yes/No

#### How frequently does your child use the computer at school? ____________

#### Purpose(s) of computer use: (Check all that apply)

- □ Educational tool
- □ Reward
- □ Communication (e.g., computer-based voice output device, specialized software)

#### Purpose(s) of computer use: (Check all that apply)

- □ Educational tool
- □ Reward
- □ Communication (e.g., computer-based voice output device, specialized software)

#### Please list your child’s preferred software programs:

#### How does your child access the computer? (Check all that apply)

- □ Mouse
- □ Adaptive access (e.g., IntelliKeys, touch window, etc.)
- □ Keyboard
- □ My child does not independently access the computer
### Financial/Insurance Information

#### Primary Insurance Information:

<table>
<thead>
<tr>
<th>Health Insurance Provider:</th>
<th>Policy Holder’s Name:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
