Your Hospital Stay
A take-along guide
Welcome to Boston Children’s Hospital

Thank you for choosing Boston Children’s Hospital for your child’s care. We know there is never anything routine about being admitted to the hospital, especially when your child is concerned. We’ve developed this brochure to simplify a few things so you can focus on your child while you’re here.

In these pages, you’ll find tips on getting to Boston, the Longwood Medical Area and through the front door of the hospital as easily and quickly as possible. There is also information on a few of the places you’re likely to visit while you’re here and some of the many support services Boston Children’s offers.

On behalf of our entire team, welcome to Boston Children’s. Our goal is to provide you with exceptional care and exceptional service.

Sincerely,

Sandi Fenwick
President and Chief Executive Officer
Boston Children’s Hospital
Preparing your child

A child’s hospital stay can affect many areas of your family’s daily life. No matter how old your child is, remember these helpful hints:

• Choose a quiet time to talk about the upcoming surgery and/or hospitalization.
• Use a calm and relaxing voice.
• Reassure your child that you feel that the hospitalization, procedure or test is the right thing to do.
• Ask your child what she knows or thinks about the hospital.
• Try to choose words that are neutral when describing procedures or tests. For example, you may want to tell your child that the doctor will give him or her a “special sleep medicine” if he or she is having anesthesia.
• Try not to make promises you can’t keep. For example, don’t tell your child that nothing will hurt or that there won’t be any blood tests.
• Tell your child that friends and family may be able to visit.
• Encourage your child to ask you, doctors and nurses lots of questions.
• Pay close attention to your child’s feelings and help him or her talk about them. You can help him or her express feelings through drawing, painting or medical play with stuffed animals at home.
• Visit bostonchildrens.org/prepare for age-specific advice on how to prepare your child. If you have questions/concerns about the hospital experience, please call Child Life Services Monday to Friday, 9 a.m. to 5 p.m. at 617-355-6551.

Socialize with Boston Children’s

Boston Children’s Hospital’s Facebook fan page is the largest hospital page in the world! Have you become a fan yet? If not, visit facebook.com/bostonchildrens.

Thousands of people are already following @BostonChildrens and @ThrivingKids on Twitter. Are you getting our tweets?

Boston Children’s Thriving blog was recently named one of the best pediatric health blogs in the country by Parent and Child magazine. Stop by every day for the latest in child health at childrenshospitalblog.org.

Emergency care

Unless the accident or illness is life threatening, it’s best to talk to your child’s doctor before going to the emergency department. Boston Children’s physicians work closely with local emergency medicine providers in these community hospitals:

Beverley Hospital
85 Herrick St.
Beverly
978-922-3000

Boston Children’s Hospital
300 Longwood Ave.
Boston
617-355-6624

Norwood Hospital
800 Washington St.
Norwood
781-769-4000

St. Luke’s Hospital
101 Page St.
New Bedford
508-679-7136

South Shore Hospital
55 Fogg Rd.
South Weymouth
781-624-8000

Winchester Hospital
41 Highland Ave.
Winchester
781-729-9000
MyChildren’s Patient Portal

Is a secure, easy-to-use way to access some of your child’s medical information online or on the go. With MyChildren’s you can:
- review portions of your child’s medical record
- send secure messages to Boston Children’s clinicians
- request, cancel and confirm appointments
- pay medical bills

Please go to Mychildrens.org to sign up today!

What to bring

Important information
• names and dosages of medications your child is taking (fill this out on page 5)
• blood test results (if done at an outside lab)
• immunization records
• insurance information
• copy of court papers designating legal guardianship (if applicable)
• signed health care proxy/advance directive (if 18 or over)
• written list of questions that you or your child may have

Things to keep in mind when packing
To help your child feel more comfortable, ask what special things he or she would like to bring to the hospital. Some favorite things might include:
• a favorite stuffed animal or blanket
• pillow, bathrobe and slippers
• toys, games, books and photos
• schoolwork, if appropriate

Soap, shampoo, toothbrushes, toothpaste, lotion and patient gowns are available on each unit.

Bring your child’s medical electrical appliances, such as a pump or monitoring device. These items must be inspected by the Department of Biomedical Engineering. Ask your nurse for assistance or call 617-355-6166.

Ask your doctor if you should bring glasses, hearing aids, crutches, braces, corrective shoes or other orthopedic devices.

We encourage you not to bring cord-operated personal devices (hair dryers, heating pads, radios) from home. If you do bring them, please talk to staff on your unit, who will contact our Safety Department, before using your cord-operated device. Battery-operated devices (iPods, cell phones, laptops) are allowed.

Personal cellular phones, smart phones and other wireless devices are not allowed within three feet (one arm’s length) of electrical medical equipment, such as:
• electric wheelchairs
• incubators
• IV pumps
• patient monitors
• ventilators

Preparation tips from our Family Advisory Committee

Write down questions
Before your child’s inpatient stay, think about and write down any questions you have, and ask your child or teen if he or she has any questions or concerns. If he is anxious about a surgery or procedure, consider visiting the hospital beforehand so he or she knows what to expect.

Organize
If your child has complex health care needs, consider creating a medical history binder with pertinent evaluations from other physicians and/or schools. Partitioning the binder by condition, with the most recent reports on top, is a helpful way to organize it.

Arrive early
Allow at least an hour to account for parking and the admission process. There are things to see and do if you get to the hospital early. For a list of things to do, visit bostonchildrens.org/thingstodo.
Tips for teens and young adults

Boston Children’s Teen Advisory Committee offers the following advice:

Can my friends visit?
Unless your medical condition prohibits visitation or you are in an intensive care unit, your friends and siblings can visit you in your room from noon to 8 p.m. Try to limit friends to three at a time. Your parents, grandparents or guardians can visit at any time. They can also send you mail or email (see page 15).

Can I email my friends or use the Internet?
In addition to the computers available for your use in the Center for Families, some units have computers you can use to email friends and go online. If you have a laptop, feel free to use it in your room, which has free wireless access.

Will I have a roommate while I’m in the hospital?
You might have a roommate. Staff members will do everything possible to give you as much privacy as they can. We also ask that you be respectful of others’ privacy.

Can I bring my clothes and other belongings from home?
We encourage you to bring your favorite things—photos, clothes, iPod, laptop, etc., to make you more comfortable. Remember to lock any special/expensive items in the safe in your room or on your unit.

Will I have access to a TV or video games?
Your room will have a TV and a VCR or DVD player. When you arrive, talk to your child life specialist about other activities, including movies and games.

Can I go outside?
If your doctors and nurses agree that it’s OK, you can go outside to the Prouty Garden.

Do you provide tutoring?
Boston Children’s provides tutoring for eligible students. Please ask your nurse or child life specialist for tutoring information.

Am I allowed to bring in food?
You may have food restrictions while you’re in the hospital, so please talk to your nurse before eating food from outside the hospital.

Who can answer my medical questions?
Your nurses and doctors are happy to answer all your questions. Remember, you’re part of the team and will be involved in decision-making about your care.

You’ll receive more information about life in the hospital in your Welcome Packet when you arrive.

Check out our Teen Advisory Committee Web site at bostonchildrens.org/TAC for more useful tips.

Safeguard your stuff
Feel free to bring your iPod, laptop and other valuables. However, please be aware that Boston Children’s is not responsible for lost or stolen items (see Security on page 18). If you do bring items of value, keep them locked up when unattended. A locked cabinet or safe is available for your use on each unit. Ask your nurse to show you where it is.
Transportation and lodging

**Via subway or bus**

**Green Line "D" train.** Get off at the Longwood stop. Walk uphill on Chapel Street to the end. Go left on Longwood Avenue. Boston Children’s is six blocks down on your right.

**Green Line "E" train.** Get off at the Longwood Medical Area stop. Walk west on Longwood Avenue. Boston Children’s is two blocks down on your left.

**City buses.** MBTA buses that stop near or at Boston Children’s include routes 8, 8A, 39, 47, 60, 65, CT2 and CT3. For more information, visit mbta.com.

**Special needs transportation**

THE RIDE provides transportation for individuals with a physical or mental disability that prevents them from using public transportation.

For more information, visit mbta.com or call 617-222-3200.

**Rental cars and taxis**

You may call taxis via direct-line telephones in the hospital’s Main Lobby near the Valet Services desk.

For a list of car rental agencies and limousine services, visit bostonchildrens.org/rentals.

**Air travel**

Logan International Airport in Boston is approximately seven miles from the hospital. Be sure to allow up to an hour of travel time, depending on the time of day and traffic. There is no hospital-designated shuttle.

Other airports in the region are Manchester Boston Regional Airport in Manchester, N.H. (flymanchester.com), and TF Green International Airport in Warwick, R.I. (pvdairport.com). Both are about an hour’s drive from Boston Children’s. More information, including medical air transport and free airplane transportation for patients and families with qualifying financial status, is at bostonchildrens.org/air.

**Lodging**

The hospital provides accommodation for one parent in each patient’s room. See page 13 for more information.

**Hospitality Homes program**

The program provides temporary housing in volunteer host homes and other donated accommodations for families and friends of patients. For information, visit www.hosp.org or call toll-free at 888-595-4678.

**Hotels in Boston**

A list of area hotels, inns, bed and breakfasts and short-term housing is at bostonchildrens.org/stay, or you can call the hospital’s Accommodations Line at 617-919-3450.

**Patient family housing**

A short walk from the hospital, our patient family housing can accommodate several families. Any family member or support person of a Boston Children’s patient is eligible to stay here. There is a communal kitchen and living room, and there are laundry facilities in the building. For more information, including pricing, call 617-919-3450.

**Center for Families**

The Center for Families is here to support and guide you during your experience with Boston Children’s. We can help with all the services listed above, or supply virtually any other information you’re likely to need while you’re here, so call us at 617-355-6279, or e-mail us at ctrfam@childrens.harvard.edu.
Parking

Boston Children’s Patient and Family Garage
The Boston Children’s Patient and Family Garage is located on the corner of Blackfan Circle and Longwood Avenue, directly across the street from the hospital’s main entrance. The garage is open 24 hours a day and the cashier station is located in the garage elevator lobby.

You can get your parking tickets validated at the Information Desk in the Main Lobby. Please note that discounted rates and validations are only valid at the Patient and Family Garage and not at the 333 Longwood Avenue garage, which is not a Boston Children’s facility.

Before returning to your car, please pay at either the cashier station or the automated pay stations in the Main Lobby and garage elevator lobby. You can also pay with a major credit card at the exit gate.

Vehicles taller than 6 feet 8 inches will not fit in the Patient and Family Garage and must be valet parked at the main entrance.

Valet parking services
Patient valet parking is available at the hospital’s main entrance 24 hours a day for an additional fee. Patients who valet park are still eligible to receive discount rates by visiting the Information Desk in the Main Lobby.

When leaving Boston Children’s, pay for your valet parking at the cashier desk located in the Main Lobby. Once you have paid, your car will be driven up to the main entrance for you.

Handicapped vehicle parking
Handicapped vehicle parking is available through valets at the main entrance or in the self-park Patient and Family Garage. There is no additional charge for valet parked handicapped vehicles, but the same garage rates still apply.

Please note that valets cannot accept some specially equipped handicapped vehicles, such as those with hand controls. Valet Services reserves the right to refuse any vehicle they feel would be unsafe to drive.

If you have additional questions about parking options, contact the Parking and Commuter Services Office at 617-355-6251.

Patient Relations
Patient Relations can address questions or concerns you might have about your child’s care, hospital policies and procedures, or patient and family rights and responsibilities. They can be contacted through the Center for Families on Farley 1, Monday to Friday, 8:30 a.m. to 4:30 p.m., at 617-355-7673. After 4:30 p.m. or on weekends and holidays, contact the administrator on duty through the page operator at 617-355-6369.

If after speaking with Patient Relations, you feel that your concern or complaint has not been resolved, or if you choose not to communicate with Patient Relations, you have the right to file a grievance with:

The Division of Health Care Quality
99 Chauncy St., Boston, MA 02111
630-792-5800

or

The Office of Quality Monitoring
Joint Commission on Accreditation of Healthcare Organizations
One Renaissance Blvd.
Oakbrook Terrace, IL 60181
630-792-5000

When driving down Longwood Avenue, look for the Boston Children’s parking garage across the street from the main campus.
To improve the Boston Children’s Hospital experience, certain areas are currently under construction and may be temporarily unavailable to patients and families.
From I-93 North or South

- Follow the signs to Storrow Drive.
- After the Copley Square/Massachusetts Avenue sign, take the left exit off Storrow Drive marked Fenway, Route 1.
- Take the right fork marked Boylston Street, Outbound.
- At the first major intersection, bear left onto Brookline Avenue, past Beth Israel Deaconess Medical Center—East Campus to the Longwood Avenue intersection.
- At the next major intersection, turn left onto Longwood Avenue.
- Boston Children’s main entrance is two blocks down on the right.
- Boston Children’s parking garage is across the street on the left.

From south of Boston

Via routes 1, 28 and 138

- From Route 1, continue to the Jamaicaway.
- From routes 28 or 138, proceed via Morton Street and the Arborway to the Jamaicaway.
- Continue on the Jamaicaway as it turns into the Riverway.
- At the Brookline Avenue traffic light, turn right onto Brookline Avenue.
- Continue to the third traffic light and turn right onto Longwood Avenue.
- Boston Children’s main entrance is two blocks down on the right.
- Boston Children’s parking garage is across the street on the left.
From west of Boston

Via the Massachusetts Turnpike (I-90)

› Take exit 22 at Copley Square/Prudential.
› Follow the left lane, labeled Prudential Center, and take Huntington Avenue west to Longwood Avenue.
› Turn right onto Longwood Avenue and go past Harvard Medical School.
› Boston Children’s main entrance is on the left.
› Boston Children’s parking garage is across the street on the right.

Via Route 9

› On Route 9, proceed to Brookline Village.
› After passing the fire station on your right, at the next large intersection (at the Brook House Apartments), take a left onto Brookline Avenue.
› Proceed through four traffic lights to the Longwood Avenue intersection.
› Turn right onto Longwood Avenue.
› Boston Children’s main entrance is two blocks down on the right.
› Boston Children’s parking garage is across the street on the left.

From Logan Airport

› Take the Sumner Tunnel to Storrow Drive.
› Follow the “Via I-93” directions on the previous page.
Before surgery
If your child is having surgery, you will also be scheduled for a visit to the Preoperative Clinic (Pre-Op) before the procedure. Here, parents and families receive information about the upcoming surgery, including when your child should stop eating, when to arrive at the hospital, what will happen during surgery and how long the hospital stay will be.

Pre-Op is located on the first floor of the Farley/Pavilion Building, near the Patient Entertainment Center. As you enter the hospital through the main entrance, take the stairs on the left or the glass elevator up one flight. Turn right at the top of the stairs (or exit the elevator) and follow signs to Pre-Op Clinic/Admitting on the left.

During the pre-anesthetic evaluation in Pre-Op, anesthesiologists and nurses will do a physical exam, review your child’s medical history and create a plan for surgery and post-surgery. The evaluation also provides an opportunity for patients and families to ask questions about the process. The anesthesiologist will talk with you during this visit to decide if one parent can go into the operating room for the start of the anesthesia. Families should be prepared to spend up to two and a half hours at the hospital for the Pre-Op visit.

Parents in the operating room (OR)
Children and parents can be understandably anxious before going into the operating room (OR). Your child may be given some medication in the Pre-Op holding area to help him or her relax. There is no guarantee that a parent can go into the OR. The final decision is made by the anesthesiologist responsible for your child in the operating room.

Dietary guidelines
Eating and drinking are not allowed for specified periods of time before anesthesia. Guidelines vary, depending on your child’s age. It is important to follow these directions carefully. If your child eats or drinks after the indicated time, the surgery may have to be rescheduled for another day.

For detailed guidelines based on your child’s age, call Pre-Op at 617-355-3765, check with your child’s surgeon or go to bostonchildrens.org/preopdiet for specific guidelines.

Medications and herbs
Please be sure to fill out the form on page 5 of this brochure and list all medications and herbs that your child is taking (or may recently have taken).

Surgery may have to be rescheduled if your child:
• gets sick within three days of the scheduled surgery
• has a respiratory infection or asthma attack within three days of the scheduled surgery
• has been exposed to measles, mumps or chicken pox in the 21 days before surgery

If any of these conditions occur, please call your child’s doctor. For more information, call the Pre-Op Clinic at 617-355-3765.
Life at the hospital

Once you have settled into your child’s room, the doctors and nurses will examine your child and ask you some questions. Feel free to ask as many questions as you need to.

Sleeping at the hospital
One parent can stay in your child’s room. Chairs in most patient rooms fold out into cots, while some rooms have beds built into the window alcoves. There are showers in each room for parents to use (except in the intensive care units, ICUs), and we provide lockers and safes where you can secure valuables. Towels and bed linens are also provided.

If your child will be staying in an ICU, in addition to the space by the bedside, there are a limited number of dormitory-style rooms available for parents.

For more information, contact the Center for Families at 617-355-6279 or visit bostonchildrens.org/families.

Eating
Meals will be served to your child in his or her room. You should order your child’s meals from the menu provided to you each day. A limited selection of kosher and Halal meals are available for patients. Please ask your nurse for help when ordering these meals.

If your child is able to leave the unit, instead of ordering a meal in the room, your nurse can give you a coupon so he or she can eat in The Café at Children’s. Please check with your child’s nurse before giving your child food from outside the hospital. Families may buy their meals in the café or at Au Bon Pain in the lobby. You will get information on area amenities, including restaurants, in your Welcome Packet when you arrive.

Visiting a patient
Parents or guardians are welcome to stay in the hospital with their child 24 hours a day, although there is room for only one parent to sleep. While in the hospital, you are required to wear a yellow photo ID badge, which is issued Monday to Friday, 8 a.m. to 9:30 p.m., and Saturday and Sunday, 7 a.m. to 9 p.m. at the Information Desk in the Main Lobby. You must show identification, such as a driver’s license, to receive an ID. (In your Welcome Packet, you will get a list of restaurants, shops and area attractions that offer discounts for parents with valid yellow Boston Children’s IDs.)

Brothers, sisters, friends and relatives outside the immediate family may visit every day between noon and 8 p.m. These visitors will be asked a series of questions about current or recent infections and exposure to contagious diseases that could place patients at risk, and will be required to wear a blue badge while in the hospital. In most cases, this screening will take place at the Information Desk in the Main Lobby. Visitors with current or recurrent symptoms or exposures should not visit inpatient units, and may be asked to remain in the Main Lobby. Once cleared, visitors will be given a sticker, valid for one day, that must be worn at all times while they are in the hospital. Only parents or guardians are allowed to visit the hospital after 8 p.m., with some exceptions.
Automated Teller Machines
ATMs are available.

Cashier
Located on Farley 1, across the hall from the Center for Families, the cashier sells stamps, provides change and can cash traveler’s checks, money orders and personal checks up to $25. Hours are Monday to Friday, 8 a.m. to 4:30 p.m. 857-218-3434.

Food
The Café at Children’s offers breakfast, lunch and dinner. Au Bon Pain, a bakery-café located in the Main Lobby, serves soups, sandwiches, salads, coffee and baked goods.

Laundry facilities
Washers and dryers are located on the first floor of the Farley Building. The machines are coin operated (quarters only). Bills can be changed at the cashier. Laundry detergent is also for sale. Laundry facilities are open 24 hours.

Pharmacy/personal care items
The CVS pharmacy in the hospital’s Main Lobby stocks many personal care items, such as toothpaste, deodorant and shampoo. There are showering facilities located on each inpatient unit except for the ICUs. Ask your unit nurse where the facilities are on your unit.

Phones
Pay phones are available in the Main Lobby behind the valet desk. Phones are also available in most patient rooms. The direct-dial number may be shared with friends and family, but parents and patients should request that friends and family members not call after 8 p.m. They may also call Patient Services at 617-355-6201 to be transferred to the room. There is no charge for incoming calls. You will receive information on pay phones and video phones for deaf or hard-of-hearing people in your Welcome Packet. Please note that personal cellular phones, smart phones and other wireless devices are not allowed within one meter (one arm’s-length) of electrical medical equipment such as incubators, ventilators, IV pumps, patient monitors and electric wheelchairs.

Wireless Internet access
Free wireless access is available throughout the hospital. Wi-Fi hotspots include a content filter with a blocking profile that prevents access to offensive and illegal Web sites.

Guidelines for visitors
Individual floors may have additional rules, so please check with your child’s nurse.

• Siblings are welcome, but please try to limit the number of visitors.
• Please do not bring anyone to visit who has evidence of current or recent infection or exposure to contagious diseases.
• Please make sure visitors are considerate of other patients and staff, especially in regard to noise. Parents are responsible for their other children during visiting hours.
• Please notify staff on your child’s unit in advance when arranging for entertainers or special guests.
• Please note that space for personal items is limited in the ICUs.
• Food, fresh or dried flowers and plants are not allowed in patient rooms on certain units, such as the ICUs. Silk flowers, pictures and cards are welcome.
• Latex balloons are not allowed anywhere in the hospital. Deliveries of latex balloons to the hospital will not be accepted. Mylar balloons for patients are welcome.

For more information on which floors have restrictions, contact the Information Desk at 617-355-6201.
Connecting with patients

**Mail/gifts**
Patients may receive letters, cards and gifts through the mail. Mail should be addressed to:

- **Child’s full name**
- **Floor number, unit**
- **Boston Children’s Hospital**
- **300 Longwood Ave.**
- **Boston, MA 02115**

**How to help**
If friends or family members ask how they can help, you can direct them to [bostonchildrens.org/howtohelp](http://bostonchildrens.org/howtohelp), which has the following information:

**Blood donation**
Family and friends can donate blood or platelets at our Blood Donor Center at 333 Longwood Avenue, first floor. The center is open Tuesday, 9:30 a.m. to 7:30 p.m.; Wednesday, 8:30 a.m. to 7 p.m.; Thursday, 8:30 a.m. to 7 p.m.; Friday, 7 a.m. to 4:30 p.m., Sunday, 7:30 a.m. to 3 p.m.; and closed Saturday and Monday.

To schedule an appointment for a blood or platelet donation, call 617-355-6677. The center also takes walk-in blood donations during hours of operation.

**Flowers and gifts**
Fresh or dried flowers and plants are not allowed in patient rooms on certain units. Cards, letters, toys, games and Mylar balloons are welcome; however, latex balloons are not allowed anywhere in the hospital.

For more information on which floors have restrictions, contact the Information Desk at 617-355-6201.

**Charitable gifts**
There are many ways to give back to Boston Children’s: make a donation, participate in one of our fund-raising events or even host your own event to benefit the hospital.

Visit [bostonchildrens.org/giving](http://bostonchildrens.org/giving) or call 617-355-6890 for more information.

**Honor a loved one with a gift**
How do you honor someone special on their big day—a birthday, wedding, graduation or other occasion? Consider making a donation in their name at [bostonchildrens.org/tribute](http://bostonchildrens.org/tribute). Or visit [bostonchildrens.org/givethemahand](http://bostonchildrens.org/givethemahand) to make a gift that honors a favorite Boston Children’s nurse, doctor or other care specialist.

**NSTAR’s Walk for Boston Children’s Hospital**
Food, fitness and plenty of families—it’s what makes our annual June walk along the Charles River a can’t-miss celebration. Many families form teams to celebrate their son or daughter—like Hallie’s Happy Hearts and Will’s Troopers—while others volunteer. Join the fun at [bostonchildrens.org/walk](http://bostonchildrens.org/walk).

Donate your time to Family Housing by becoming a Family Housing volunteer, you’ll help to make Boston Children’s a home-away-from-home experience for our patients and families. Host creative group activities, prepare meals for guests or plan food drives for one of our family housing facilities. To learn more, visit [bostonchildrens.org/familyhousing](http://bostonchildrens.org/familyhousing).

**Volunteer**
Our trained volunteers devote thousands of hours each year to supporting hospital staff, patients, families and visitors. From playing with children during waiting times to helping families find their way in the halls, becoming a volunteer can make a huge difference in a child’s life—learn more at [bostonchildrens.org/volunteer](http://bostonchildrens.org/volunteer).
Support services

Chaplaincy and spiritual support
Chaplains can help meet your unique spiritual needs or contact local clergy of your own tradition. Our chaplains, representing a variety of faiths, including Islam, Judaism, Protestantism and Roman Catholicism, are available 24 hours a day. You may request a chaplain’s visit at any time by calling the office directly or asking your nurse to have a chaplain paged. The Interfaith Chapel, located on Farley 1, is always open.

To email an individual chaplain prior to your arrival, visit bostonchildrens.org/chaplain or call 617-355-6664.

Center for Families
The Center for Families is designed to be your home-away-from-home. We serve as your support system throughout your visit, and can connect you to available resources at Boston Children’s or in the surrounding area. If you need help finding a place to stay, checking your e-mail, charging your cellphone, and much more—we are here for you.

All patients, families and professionals are welcome to visit. The center is located in the Farley Building, just up the stairs from the hospital’s main lobby, and is open Monday to Friday, 8 a.m. to 7 p.m. and Saturday, 9 a.m. to 1 p.m.

For more information, call 617-355-6279 or visit bostonchildrens.org/families.

Child Life Services
Child life specialists enhance patients’ emotional, social and cognitive growth during a hospital stay by giving special consideration to each child’s family, culture and stage of development. Child Life Services supports patients and families through medical tests, prepares children for procedures and develops ways for children to cope with fear and anxiety related to their care. Specialists also offer play opportunities and facilitate art and educational activities.

To find out more, call 617-355-6551. Monday to Friday, 9 a.m. to 5 p.m., or visit bostonchildrens.org/childlife.

Education and tutoring
Boston Children’s provides tutoring for eligible students. Ask your nurse or child life specialist for tutoring information.

The International Center
The International Center helps coordinate medical services and accommodations for our international patients. Our goal is to serve as the single point of contact and resource for families, foreign providers, payers and other international organizations.

For more information, call 617-355-5209, Monday to Friday, 9 a.m. to 5 p.m. or visit bostonchildrens.org/international.
**Interpreter Services**
Interpreters in nearly 70 languages are available 24 hours a day.
American Sign Language interpreters are available on request. TTY machines and Sorenson Video Phones are also available.
To request an interpreter, call 617-355-7198 or email interpreters@childrens.harvard.edu, Monday to Friday, 8 a.m. to 4:30 p.m. After 4:30 p.m. or on weekends and holidays, call the page operator at 617-355-6363 and ask for the interpreter on call. To arrange for an interpreter once you are at the hospital, ask your child’s doctor or nurse for assistance.

**Social Work**
At Boston Children’s, we understand that your child’s hospitalization, illness or injury is a stressful experience. Clinical social workers are available in every area of the hospital to help patients and their families deal with the broad range of psychosocial issues and stresses related to coping with illness and maintaining health.
To request a social worker, ask your doctor or nurse or call the department directly at 617-355-7965 Monday to Friday, 8:30 a.m. to 5 p.m.; nights, weekends and holidays call the page operator at 617-355-6363. For more information, visit bostonchildrens.org/socialwork.

**There’s more**
When you arrive at Boston Children’s, you’ll get a Welcome Packet that will include information about:
- your child’s daily routine
- eating at the hospital
- visitation tips

- restaurants, shops and attractions that offer discounts for families
This information is also available at bostonchildrens.org/pf.

**What you’ll find at the Center for Families**
- Information on illnesses, treatments, child development, parenting and sibling issues
- Hospital and community resources, including family-to-family support
- Computers to email family and friends, access the Internet and create personal Web pages
- Lactation specialists can help you find a lactation room and rent or sell you a breast pump
- Patient Relations representatives you can consult with
- Car seats or strollers to rent for the day
- Books, games, videos and video games
Security

Boston Children’s is not responsible for lost or stolen property. Since many people go into and out of the hospital at all hours, theft is a concern. Please try to leave valuables at home, including expensive clothing, large sums of money and jewelry. Talk to your nurse about securing your items.

For safety reasons, Boston Children’s recommends that you do not walk alone outdoors at night. Please call Security if you need an escort.

Weapons, including firearms and knives, are not allowed on hospital grounds. If you are legally authorized to carry a weapon, please contact Security at 617-355-6121 before coming to the hospital to arrange to have it secured when you arrive.

For more information call 617-355-7455.

For more information or for emergency assistance, call 617-355-6121, 24 hours a day.

Alcohol and drugs

Alcohol and illegal drugs are prohibited in the hospital and on the grounds. Patients, parents or other visitors who would like professional help for problems with alcohol or drug use may speak to a nurse, physician or social worker.

Smoking

For the health of our patients, families and employees, Boston Children’s is now a 100-percent smoke-free campus. If you feel the need to smoke you must leave the campus. Maps helping you identify our property lines are available at the Information Desk in the Main Lobby.

Safety first

Your child’s caregivers should ask for your child’s name and birth date before doing any test or procedure.
Medical Records

The privacy of your child’s health information is important to us, and we make every effort to ensure that it’s kept confidential. Protected Health Information (PHI) is information that can identify your child or is related to your child’s health, the care received here or payment for care. The Boston Children’s Notice of Privacy Practices describes how we may use or disclose your child’s PHI and your rights to access and/or change that information.

A copy of this notice may be downloaded at bostonchildrens.org/records.

Authorizing release of or obtaining copies of health information

Our policies require written permission for the release of your child’s health information (except releases required for treatment purposes). To do this, please complete, sign and mail or fax the form found at bostonchildrens.org/records. There is no charge for copies of a clinical abstract of your child’s record requested by health care providers or those needed for consultation or continuing care. All other copies requested (for personal records, attorneys, insurers, etc.) are charged according to the number of pages in the record.

For more information, call 617-355-7546 or fax 617-730-0329.

Patient Financial Services

The telephone numbers for billing inquiries and financial assistance are located below. You will need to enter your account number (12 digits located at the top-right-hand corner of your statement) and your child’s date of birth. Frequently asked questions, along with forms for changing your billing and insurance information, are available under the Patient Billing section on our Web site at bostonchildrens.org/billing.

You may receive multiple bills for services you receive in a single day since some of the physicians bill for their services separately. Each bill will have a number to call if you have any questions. Both the hospital and the physicians you see here offer financial assistance and discounts to patients. Free care is available for eligible patients and services.

For more information regarding billing, discounts or free care, call the financial assistance number below or mail your inquiry to the address provided.

Billing inquiries 617-355-3397
Financial assistance 617-355-7201

Boston, MA 02241-3053
Informed consent
A parent or legal guardian must accompany children under age 18 to the Preoperative Clinic or the Admitting Office to provide consent for medical treatments and procedures during hospitalization. In general, the hospital cannot provide treatment without consent from a parent or legal guardian.

If your child is 18 or older and is able, he can consent to treatment. If, however, a patient 18 or older is emotionally or mentally limited, he may not be able to consent to treatment, and parents will need court-ordered guardianship to consent for him. In such cases, please bring the legal papers documenting your guardianship or authority to consent to a child’s care with you to the hospital. If the Massachusetts Department of Children and Families is involved with your child, contact your case worker to ask about the role of DCF in any decisions regarding the hospital experience.
Boston Children’s Hospital Community of Care is there – no matter where it hurts.

Whether for a simple treatment or a complex procedure, you want the best care for your child. You want Boston Children’s Hospital Community of Care. Our Community of Care includes satellite locations, affiliated hospitals and over 400 pediatricians across the state. To learn more, visit bostonchildrens.org/until.
