In an effort to better target the underlying mechanisms of autism for diagnosis and treatment, efforts to identify reliable biomarkers in genetics and neuroimaging are advancing quickly.

The purpose of this one-day conference is to provide information ranging from rare genetic variations in autism to more global efforts in functional and structural neuroimaging.

May Institute’s Annual Clinical Conference:
Biomarker Contributions to Understanding Autism Spectrum Disorder

Wednesday, May 25, 2016
8:15AM – 4:45PM
May Institute
41 Pacella Park Drive
Randolph, MA 02368

COST: $120

Register online at mayinstitute.org/events

For more information, contact Valerie Thompson at 781.437.1346 or vthompson@mayinstitute.org.

Six APA continuing education credits will be offered. NASW and MMCEP credits pending approval.

ABOUT MAY INSTITUTE

May Institute is a national nonprofit organization that provides educational, rehabilitative, and behavioral healthcare services. We serve children and adults with autism spectrum disorder and other developmental disabilities, brain injury and neurobehavioral disorders, and behavioral health needs.
