

# Join Boston Children's Hospital in a world-class partnership

Boston Children's Hospital  
Sports Medicine

**WHEN YOUR ORGANIZATION BECOMES A BOSTON CHILDREN'S HOSPITAL SPORTS MEDICINE AFFILIATE**, your athletes gain direct clinical access to our world-renowned experts in sports medicine. With locations in Boston, Lexington, Peabody, Waltham and Weymouth, specialized care is always within reach.

## Why partner with us?

Our sports medicine experts have unparalleled experience that allows us to provide the highest quality health care based on specific needs of growing and adult athletes.

## Who do we provide care for?

We provide care to over 150 prestigious sports and performing arts organizations including the Boston Ballet, Boston Athletic Association and Northeastern University.

## Available benefits

### Preferred access to care:

- FasTrac mobile app for one-click appointments
- Private contact line for our Affiliated Group Member Liaison
- Direct access for urgent appointments, evaluations and treatments
- Access to our Saturday Urgent Sports Medicine Clinic (September through May)
- Concussion clinics and baseline testing at our Boston, Lexington, Peabody, Waltham and Weymouth campuses
- Pre-participation physicals and injury-prevention programs
- Specialized performance programs for runners and female athletes
- The Micheli Center return-to-play evaluations and injury-prevention programs

### Comprehensive education programs for athletes, athletic trainers, coaches and families:

- Injury prevention training
- Sports psychology
- Sports nutrition
- Access to The Micheli Center Lecture Series and major sports medicine conferences for free or at reduced rates (for fully contracted affiliated group program members)

### Team physician and/or clinical staff may supply:

- Direct contact, coverage of major events and supervision of athletic trainers as mandated by their Massachusetts practice licensure laws under the Commonwealth of Massachusetts Board of Allied Health Professionals
- Partial affiliation status with institutions for clinical access, referrals, second opinions and surgical consults are also available (known as our Referring Affiliates)
- Guidance for athletic trainers, physical therapists, dance therapists, school nurses and administrators
- Help with establishing treatment protocols and developing Emergency Action Plans for all venues and coverage needs
