

COVID-19 Safety — Reconfigured Offices at PHCA

Dear Patients and Families,

Pediatric Health Care Associates has taken extraordinary steps to protect you during your visits to our offices during the coronavirus pandemic. We are fortunate to have five offices that allow radical separation of sick and well patients.

Our Melrose, Reading and Salem offices are **well-child only** offices. Patients with symptoms at all suggestive of COVID-19 and COVID-19 exposed patients are rigorously screened out of well child only offices.

Our Peabody office has been architecturally reconfigured creating **two adjacent isolated offices**, one for sick and one for well patients. Our Lynn office is separated into **morning-well and afternoon-sick** patients.

These arrangements are critical to keep our patients and families safe and healthy during the COVID-19 pandemic.

It is important for you to continue to be seen for your regular preventative care visits, and to keep your immunizations up to date. This includes vaccinations this fall with the Influenza vaccine. In addition, during the ongoing health care emergency, we continue to see injuries, non-COVID-19 illnesses, and patients with chronic pediatric problems.

For 46 years we have been providing primary medical care to children and adolescents up to 21 years of age. In this pandemic it is our goal to continue to earn your trust, and work together to keep children healthy and safe.

For more information please visit us on the web at www.phcapediatrics.com or to schedule an appointment, call 978-535-1110.

Sincerely,

The Clinicians of Pediatric Health Care Associates
