

COVID-19 Molecular Testing

RESULTS IN 15 MINUTES

- Performed by nucleic acid amplification testing (NAAT)
- NAAT and PCR are the gold standard/preferred type of COVID-19 testing
- Recommended and accepted by the CDC, MA DPH, FDA and most schools
- Sample obtained from the front of each nostril
- NOT an antigen test

Who is eligible?

- All children and adults are eligible for testing
- Symptomatic people not affiliated with Bridgewater Pediatrics should be evaluated by their PCP
- Limited number of appointments available

How do I schedule a test?

- Testing is by appointment only
- Forward the following information to contactus@bwaterpeds.com:
 - o Name of patient and parent/legal guardian
 - o Date of birth
 - o Address
 - o Phone number
 - o Copy of insurance card
- May also call 508-697-8116 option #2
- Once information received, a member of our staff will call to book an appointment

What is the cost?

- Children (< 21 yrs of age): Testing will likely be covered by your insurance company
- Adults: \$140; will be reimbursed if covered by insurance

Where will I be tested?

- Children and teens will be tested in the office after a visit with a provider
- Adults do not require a provider visit
