

Fellsway Pediatrics

Authorization For Use and Disclosure of Health Information/Restriction of PHI

If you are now 18 or older you have become a legal adult, please understand that your parents or legal guardians are no longer considered your legal representative. Under state law and federal HIPPA regulations, you can consent to your own medical care and control your own medical records and information. This means that we can no longer share your records or any medical information about you with your parents, or anyone else, without your written permission.

We do encourage you to continue to discuss, whenever possible, any health problems or concerns with your parents/legal guardians and to continue to seek their advice. If you would like us to be able to share your information with your parents, legal guardian or anyone else, we ask you to fill out and sign the enclosed consent form. Note that you can specify with whom we can share your information. You can allow us to share all of your health information or only part of it. Please specify any information that you do not want us to share. Make sure to fill in an expiration date or event. You are welcome, of course, to bring your parent with you when you visit us at the office. Please complete and sign the attached consent form.

Patient Name: _____ Date of Birth: _____

Contact Number: _____ E-mail: _____
