

**Boston Children's
Health Physicians**
New York & Connecticut

If you are fully vaccinated, your likelihood of contracting or spreading COVID-19 is very low.

Because of this, the fully vaccinated people may now safely remove masks in many outdoor and indoor settings.

This new guideline does not apply to healthcare facilities. We ask for your continued compassion and patience in protecting our younger patients who are not yet eligible to be vaccinated.

**Please continue to wear your mask in
our office.**
