

CLEFT LIP & PALATE OUTCOMES

OUR PROGRAM

The Cleft Lip & Palate Program at #1 ranked Boston Children's Hospital is one of the oldest and largest cleft centers in the country. In 2017 alone we treated 476 patients with 912 clinical encounters.

Annual Surgical Procedures (2017)

OUR PATIENTS

We are proud to care for patients both from our local Boston area and from all over the world.

OUR RESULTS

In 2016, our center began prospectively tracking our cleft outcomes to ensure we provide our patients the best care possible and take pride in our high patient satisfaction scores and low complication rates.

COMPLICATION	Our Rate	Other Centers*
Palate fistula	3.6%	1-30%
Readmission within 30 days	2.1%	2-4%

*based on results reported in the scientific literature
