Blenderized and Orthognathic (“No-Chew”) Diet Cook-Book

Recipes Adapted and Compiled by:
The Plastic & Oral Surgery Clinic Nurses
At Boston Children’s Hospital

After orthognathic surgery such as a Le Fort osteotomy, oro-nasal fistula/alveolar cleft surgery, SARPE and other upper, lower and midfacial procedures, your doctor will likely recommend a modification of your diet during your recovery period. This allows for proper alignment and healing of the boney structures involved.

Typically a Clear Liquid Diet is recommended for three days after surgery. Clear liquids include water, clear juices, Jell-O, Italian ice, popsicles (off the stick), clear broth, ginger ale, lemonade and clear decaf tea.

During your stay in the hospital, you will likely meet with a nutritionist who will talk to you about starting a blenderized diet. There are smoothies and soups in this book that would qualify as blenderized but really anything that you can put in a blender is fair game. Once you have seen your surgeon postoperatively you may later then be cleared to begin an “Orthognathic Diet” or a “No-Chew Diet”. This will include any foods that you can safely eat without chewing. It can be helpful to practice eating very soft foods without chewing prior to your surgery. Children who are not able to consistently follow these guidelines may need to continue with purely blenderized foods throughout their recovery. At all stages of your recovery, you will need to use a cup, spoon, or large syringe to eat as straws are not recommended for the full six weeks. For more information see the Orthognathic Diet teaching sheet given to you by your healthcare team and call with any questions.

FOODS TO AVOID DURING RECOVERY:

Foods with small seeds (examples: strawberries, chia seeds) until at least one week post-surgery.
Avoid any foods with a crunchy texture or any foods that require chewing/movement of the jaw.

BLENDERIZED DIET

A blenderized diet will be recommended by your surgeon from Day 3 postoperatively until your first follow-up appointment. The following are some suggestions for smoothies, milkshakes, and soups, but any foods can be put into a blender and pureed. Use gravy, milk, broth or other liquids to loosen foods as necessary. Your surgeon will let you know when it is safe for you to move on for a purely blenderized diet.

**Broccoli Cheddar Soup** *(4+ servings)*

**Ingredients:**
- 1 tbsp Melted butter
- ½ cup Medium chopped onion
- ¼ cup Flour
- 2 cups Half-and-half cream
- 2 cups Chicken stock
- ½ lb Fresh broccoli (about 1 cup)
- 1 cup Carrot
- ¼ tsp Grated nutmeg
- 8 oz Grated sharp cheddar cheese
- Salt and pepper to taste

**Directions:**
Sauté the onion in 1 tbsp melted butter and set aside. In a large pot, whisk together the melted butter and flour over medium heat for about 3-4 minutes. Slowly whisk in the half-and-half and chicken stock. Let it simmer for about 20 minutes. Add the broccoli, carrots, and onions. Let them simmer on medium low for about 25 minutes until the broccoli and carrots are tender. Puree in blender until smooth. Add nutmeg, salt and pepper, and sharp cheddar cheese.

---

**Loaded Baked Potato Soup**

**Ingredients:**
- 4 Large baking potatoes (Idaho or russet)
- 12 slices Thick-cut Applewood smoked bacon
- ½ cup All-purpose flour
- 6 cups 2% low-fat milk, heated
- 5 oz Sharp cheddar cheese, grated
- 4 oz Sour cream
- Salt and pepper to taste

**Directions:**
Preheat oven to 350 degrees. Place the potatoes on a roasting tray and bake for 45 minutes. When done, the tip of a paring knife should go through the potatoes easily. Slice the bacon into thin strips and cook in a large, heavy bottomed pot over medium heat until crisp. Remove the bacon from the pot with a slotted spoon and set aside, leaving the drippings in the pot. Add the flour to the drippings in the pot and stir to combine. Cook, without adding color, until the flour and fat have combined, about 1 minute. Pour in the milk while you whisk to incorporate. Cook over medium heat until bubbly and thickened, stirring frequently, about 15 minutes. Scoop out the potato pulp from the skins and add to the milk mixture. Carefully blenderize until smooth. Add 1 cup of the cheese, and season well with salt and pepper. Stir until cheese has melted and remove from heat. Ladle the soup into bowls, drizzle with sour cream and/or cheese. *Bacon should not be re-added as a topping due to crunchy texture.*
**Curried Squash Soup** (3-4 servings)

**Ingredients:**

- 4 tbsp Unsalted butter
- 2 cups Finely chopped yellow onions
- 4-5 tsps Curry powder
- 2 Butter squash (medium-size, about 3 lbs total)
- 2 Apples – peeled, cored, and chopped
- 3 cups Chicken stock
- 1 cup Apple juice
- Salt and pepper to taste

**Directions:**

Melt the butter in a large, heavy pot over low heat. Add the onions and curry powder and cook, covered, until the onions are tender, about 25 minutes. Meanwhile, peel the squash (a regular vegetable peeler works best). Cut in half horizontally, scrape out the seeds, and chop the flesh. When the onions are tender, pour in the stock, add the squash and chopped apples, and bring to a boil. Reduce the heat and simmer, partially covered, until the squash and apples are very tender, about 25 minutes. Pour the soup through a strainer, reserving the liquid, and transfer the solids to a food processor, or use a food mill with a medium disc. Add 1 cup of the cooking stock and process until smooth. Return the pureed soup to the pot and add the apple juice and about 2 cups more stock, until soup is of the desired consistency. Season with salt and pepper, simmer briefly to heat through.

**Roasted Cauliflower Soup** (6 servings)

**Ingredients:**

- 2 heads Cauliflower, broken into florets
- 1 large Onion
- 6 cups Water
- 1 cup Olive oil
- Salt & pepper to taste

**Directions:**

Place the cauliflower florets into a large bowl of lightly salted water; allow to stand for 20 minutes. Drain well, and arrange on a sheet of heavy aluminum foil on a baking sheet. Spray the olive oil cooking spray evenly on the cauliflower. Preheat the oven's broiler and set the oven rack about 6 inches from the heat source. Broil the cauliflower until browned, 20-30 minutes. Meanwhile, heat olive oil in a large soup pot, and cook the onion until translucent, about 5 minutes; stir in the garlic and roasted cauliflower. Pour in the water, season with salt and pepper, and simmer until all the vegetables are tender, about 30 minutes. Blend the soup in the pot with an immersion hand blender until creamy and smooth.
ORTHOGNATHIC (NO- CHEW) DIET
