

Longwood  
PEDIATRICS, LLP

## SEVEN YEAR

Name \_\_\_\_\_ Date \_\_\_\_\_

Weight \_\_\_\_\_ Height \_\_\_\_\_ Body Mass Index \_\_\_\_\_

### **Office Hours: We are available 24 hours a day, 365 days a year!**

- Monday-Friday: 8:30am-5:30 pm (later as needed to accommodate urgent visits)
- Saturdays and Holidays: 9am-12pm (later as needed to accommodate urgent visits) – Urgent visits only
- Sundays: Mornings (office times vary) – Urgent visits only

### **Telephone Coverage: Longwood Pediatrics has 24-hour telephone coverage.**

**Please ALWAYS call us before going to any emergency room.**

- Monday-Friday: 8:30am-5:30pm – to schedule appointments or leave a message for the nursing staff. This is the best option for general medical questions and to make appointments.
- Saturdays, Sundays, and Holidays: 9am – 12pm to schedule an urgent appointment – please call early in the day.
- After regular business hours: After hour calls are answered by well-trained pediatric nurses who follow protocols approved by Longwood Pediatrics. Please restrict calls to urgent medical issues only.

### **Appointment Scheduling:**

- Well Visit/Checkups: Our schedules are open one year in advance for routine well visit appointments. **Schedule next year's well visit, today!**
- Sick Visits: It is best to call the office early in the day to schedule an appointment. If you are not sure that your child needs to be seen, you may leave a message for our nursing staff and a nurse will call you back the same day.

### **Communication:**

We encourage all families to use MyChart, our patient portal. With MyChart you are able to communicate with your child's provider through messaging, book appointments, see your child's medical history and more. Sign up at the front desk today!

# How safe is your home?

Circle your answers below and see how you score!

Do you have smoke alarms on each floor?	Yes	No
Do you have a carbon monoxide detector on each floor?	Yes	No
Do you replace your alarm/detector batteries annually?	Yes	No
Is there a fire extinguisher in your kitchen?	Yes	No
Does your family have a fire/emergency escape plan?	Yes	No
Do you have your chimney swept or your gas fireplace serviced annually?	Yes	No
If you have guns in your house, are they unloaded and in a locked place?	Yes	No
Do you use a stepstool, rather than climbing onto a chair, to reach items?	Yes	No
Do you wipe up floor spills right away?	Yes	No
Are your stairs free from clutter?	Yes	No
Do you have handrails on the stairs?	Yes	No

How safe are you?

Do you wear your helmet when skiing, skate/snowboarding, biking, and scootering?	Yes	No
Do you wear a seatbelt while in the car?	Yes	No

**Your score = the total number of "Yes" answers above**

If you scored **10 or higher** then you are doing great! Keep up the good work to decrease the likelihood of an accident.

If you scored **8-9** then you are doing well, but look around your home to see where you can improve on safety.

If you scored **7 or less**, be careful! Ask a family member to help change the items above to "Yes" to increase safety.

- Install smoke alarms on each floor and covering all sleeping areas; test batteries annually
- Have at least one carbon monoxide detector on each floor
- Have a family escape plan with two exit routes (in case of damage to one) and a central meeting place
- Service chimneys and gas fireplaces annually
- Contact your local fire department for help fitting smoke alarms or for fire safety advice
- Keep all guns locked away while not in use; never leave a gun out unattended
- Do not balance on chairs to reach high items—instead, use a stepstool
- Tidy up clutter from stairs to prevent falls
- Always wear a helmet when skiing, skate/snowboarding, biking, or scootering
- Always wear a seatbelt while in the car; make a rule not to drive until everyone is buckled.

# BRIGHT FUTURES HANDOUT ► PARENT

## 7 AND 8 YEAR VISITS

Here are some suggestions from Bright Futures experts that may be of value to your family.

### ✓ HOW YOUR FAMILY IS DOING

- Encourage your child to be independent and responsible. Hug and praise her.
- Spend time with your child. Get to know her friends and their families.
- Take pride in your child for good behavior and doing well in school.
- Help your child deal with conflict.
- If you are worried about your living or food situation, talk with us. Community agencies and programs such as SNAP can also provide information and assistance.
- Don't smoke or use e-cigarettes. Keep your home and car smoke-free. Tobacco-free spaces keep children healthy.
- Don't use alcohol or drugs. If you're worried about a family member's use, let us know, or reach out to local or online resources that can help.
- Put the family computer in a central place.
  - Know who your child talks with online.
  - Install a safety filter.

### ✓ YOUR GROWING CHILD

- Give your child chores to do and expect them to be done.
- Be a good role model.
- Don't hit or allow others to hit.
- Help your child do things for himself.
- Teach your child to help others.
- Discuss rules and consequences with your child.
- Be aware of puberty and changes in your child's body.
- Use simple responses to answer your child's questions.
- Talk with your child about what worries him.

### ✓ STAYING HEALTHY

- Take your child to the dentist twice a year.
- Give a fluoride supplement if the dentist recommends it.
- Help your child brush her teeth twice a day
  - After breakfast
  - Before bed
- Use a pea-sized amount of toothpaste with fluoride.
- Help your child floss her teeth once a day.
- Encourage your child to always wear a mouth guard to protect her teeth while playing sports.
- Encourage healthy eating by
  - Eating together often as a family
  - Serving vegetables, fruits, whole grains, lean protein, and low-fat or fat-free dairy
  - Limiting sugars, salt, and low-nutrient foods
- Limit screen time to 2 hours (not counting schoolwork).
- Don't put a TV or computer in your child's bedroom.
- Consider making a family media use plan. It helps you make rules for media use and balance screen time with other activities, including exercise.
- Encourage your child to play actively for at least 1 hour daily.

### ✓ SCHOOL

- Help your child get ready for school. Use the following strategies:
  - Create bedtime routines so he gets 10 to 11 hours of sleep.
  - Offer him a healthy breakfast every morning.
- Attend back-to-school night, parent-teacher events, and as many other school events as possible.
- Talk with your child and child's teacher about bullies.
- Talk with your child's teacher if you think your child might need extra help or tutoring.
- Know that your child's teacher can help with evaluations for special help, if your child is not doing well in school.

# 7 AND 8 YEAR VISITS—PARENT

## ✓ SAFETY

- The back seat is the safest place to ride in a car until your child is 13 years old.
- Your child should use a belt-positioning booster seat until the vehicle's lap and shoulder belts fit.
- Teach your child to swim and watch her in the water.
- Use a hat, sun protection clothing, and sunscreen with SPF of 15 or higher on her exposed skin. Limit time outside when the sun is strongest (11:00 am–3:00 pm).
- Provide a properly fitting helmet and safety gear for riding scooters, biking, skating, in-line skating, skiing, snowboarding, and horseback riding.
- If it is necessary to keep a gun in your home, store it unloaded and locked with the ammunition locked separately from the gun.
- Teach your child plans for emergencies such as a fire. Teach your child how and when to dial 911.
- Teach your child how to be safe with other adults.
  - No adult should ask a child to keep secrets from parents.
  - No adult should ask to see a child's private parts.
  - No adult should ask a child for help with the adult's own private parts.

# BRIGHT FUTURES HANDOUT ► PATIENT

## 7 AND 8 YEAR VISITS

Here are some suggestions from Bright Futures experts that may be of value to you and your family.

### ✓ TAKING CARE OF YOU

- If you get angry with someone, try to walk away.
- Don't try cigarettes or e-cigarettes. They are bad for you. Walk away if someone offers you one.
- Talk with us if you are worried about alcohol or drug use in your family.
- Go online only when your parents say it's OK. Don't give your name, address, or phone number on a Web site unless your parents say it's OK.
- If you want to chat online, tell your parents first.
- If you feel scared online, get off and tell your parents.
- Enjoy spending time with your family. Help out at home.

### ✓ HANDLING FEELINGS

- Talk about your worries. It helps.
- Talk about feeling mad or sad with someone who you trust and listens well.
- Ask your parent or another trusted adult about changes in your body.
- Even questions that feel embarrassing are important. It's OK to talk about your body and how it's changing.

### ✓ EATING WELL AND BEING ACTIVE

- Brush your teeth at least twice each day, morning and night.
- Floss your teeth every day.
- Wear a mouth guard when playing sports.
- Eat breakfast every day.
- Be a healthy eater. It helps you do well in school and sports.
  - Have vegetables, fruits, lean protein, and whole grains at meals and snacks.
  - Eat when you're hungry. Stop when you feel satisfied.
  - Eat with your family often.
- If you drink fruit juice, drink only 1 cup of 100% fruit juice a day.
- Limit high-fat foods and drinks such as candies, snacks, fast food, and soft drinks.
- Have healthy snacks such as fruit, cheese, and yogurt.
- Drink at least 3 glasses of milk daily.
- Turn off the TV, tablet, or computer. Get up and play instead.
- Go out and play several times a day.

### ✓ DOING WELL AT SCHOOL

- Try to do your best at school. Doing well in school helps you feel good about yourself.
- Ask for help when you need it.
- Find clubs and teams to join.
- Tell kids who pick on you or try to hurt you to stop. Then walk away.
- Tell adults you trust about bullies.

## 6 YEARS

### Safety for Your Child

Did you know that injuries are the greatest threat to the life and health of your child? Injuries are the leading cause of death of school-aged children. **Yet you can prevent most major injuries!**

At age 6, your child will become more independent. He or she will be able to do more things that are dangerous. Your child will try to prove that he or she is grown up. But children still aren't good at judging sound, distance, or the speed of a moving car at this age. Your child can learn a few simple things to do for protection, but **you must still be in charge of his or her safety.**

#### Fire Safety

**Make an escape plan** in case of fire in your home. Your fire department can tell you how. Teach your child what to do when the smoke alarm rings. Practice what you and your child would do if you had a fire.

Do not smoke in your home. Many home fires are caused by a lit cigarette that has not been put out completely.

Install smoke alarms on every level in your house, especially in furnace and sleeping areas, and test the alarms every month. It is best to use smoke alarms that use long-life batteries, but if you do not, change the batteries once a year.

#### Firearm Hazards

Children in homes where guns are present are in more danger of being shot by themselves, their friends, or family members than of being injured by an intruder. Even if your child is taught never to touch a gun, if there is a gun in the house a child's curiosity can lead to severe injury or death. It is best to keep all guns out of the home. **Handguns are especially dangerous.** If you keep a gun, keep it unloaded and in a locked place, with the ammunition locked separately. Ask if the homes where your child visits or is cared for have guns and how they are stored.

#### Bike Safety

Protect your child from bad head injuries or even death. **Make sure your child wears a properly fitted, approved helmet every time he or she rides a bike.** Never let your child ride in the street. Your child is too young to ride in the street safely!

#### Street Safety

Never let your child play near the street. Your child may dart out into traffic without thinking. The park or playground is the best place to play. Begin to teach your child safe street habits. **Teach your child to stop at the curb,** then look to the left, to the right, and back to the left again. Teach your child never to cross the street without a grown-up.

(over)

## Water Safety

Now is the time to teach your child to swim. Even if your child knows how to swim, **never let him or her swim alone**. Teach your child how to turn upright, float, tread water, and get to safety.

Do not let your child play around any water (lake, stream, pool, or ocean) unless an adult is watching. The adult must be supervising closely and continuously without distractions like reading or using a phone. *Never* let your child swim in canals or any fast-moving water.

Teach your child to never dive into water unless an adult has checked the depth of the water. **And when your child is on any boat, be sure your child is wearing a Coast Guard-certified life jacket.**

## And Remember Car Safety

Your child must use a **car safety seat or booster seat** in the car. Always check to be sure he or she is correctly buckled up before you start the car. Your child should use a car safety seat until he or she reaches the manufacturer's height or weight limit, then a booster seat until the lap belt can be worn low and flat on the hips and the shoulder belt lies across the middle of the chest and the shoulder rather than the face or neck (usually at about 4 feet 9 inches tall and between 8 and 12 years of age). The safest place for all children, even through school age, is in the back seat of the car. Set a good example.

**Make sure you and other adults buckle up too!**

From Your Doctor
