\[ \sum \leq 20 \text{ ppt} \]

\[ \sum \leq 70 \text{ ppt} \]

\[ \sum \leq 70 \text{ ppt}^{**} \]

\[ \sum \leq 20 \text{ ppt} \]

ppt = parts per trillion

\( \sum \): Means the cumulative sum of the individual PFAS levels should not exceed the listed standard in drinking water.

* Denotes the state has proposed these standards; they are currently not enforceable.

** Denotes the state has adopted EPA’s established PFAS health advisory levels.
