

The TytoCare device takes vital signs including heart rate, temperature, pulse oxygen level, blood pressure and weight.

What's Included

Tyto Device

Tongue
Depressor

Tongue
Depressor
Attachment

Stethoscope

Otoscope

Ear Caps

A digital scale, blood pressure cuff and pulse oximeter are also included. They connect with TytoCare via Bluetooth.

When to Perform an Exam

TytoCare exams are used to share measurements with your provider in three different situations:

- **Before a Scheduled Virtual Visit**
Perform the exam one day before a scheduled visit.
- **For Non-Emergency Health Concerns**
The exams you submit are not monitored continuously. For follow-up, you **MUST** contact your clinic.
- **For Emergency Evaluation**
When instructed by your provider
