

Early Identification of Autism: Training on the RITA-T (Rapid Interactive Screening Test for Autism in Toddlers) and setting-up a Two-Level Autism Screening in your Practice/Program

Learn about the RITA-T and train to reliably administer and integrate it in your practice/program to improve the early identification of ASD

Session includes:

- Early signs of ASD
- Overview & introduction of the RITA-T
- RITA-T models in Early Intervention and Primary Care
- Ongoing Study for Validation of RITA-T through Telehealth
- RITA-T reliability training
- RITA-T kits available for purchase (\$65 for the kit + \$20 shipping = \$85)
- CME/CEU Credits
- All trainees will have access to online training, videos, scoring sheets and manual after the training

February 16th, 2023

9am-12pm

Training is limited to 55 slots

EI PROVIDERS: PLEASE REACH OUT TO US AT RITA-T@CHILDRENS.HARVARD.EDU to register for the training (limited to 25 EI providers)

All other interested trainees, please register [here](#)
